RETURN TO COMPETITION PLAN
Every club planning to host or attend competition must develop a Return to Competition plan. The plan must address the key considerations above and include the elements listed in the sections below.

Return to competition can only occur when and if your local authorities have deemed it safe to return to competition. USA Swimming in no way endorses conducting practice or competition in violation of any local, state, or federal guidelines. In creating a Return to Competition plan, clubs are encouraged to consider the following:

• When to return, including an ability to add restrictions (move backward in phases) if there are additional waves of infection in your area.
• What operating adjustments your organization will make in hosting and attending competitions.
• A communications plan for all stakeholders.
• A designation of a point person or team responsible for the Return to Competition plan.
• An ability to monitor the outcomes of what is happening as you return to competition so that you can make needed adjustments.

PUBLIC HEALTH
All plans must comply with facility, local, state, and federal public health requirements.

• If there is an ambiguity between recommended guidelines, the most stringent should apply or local counsel should be consulted to provide guidance to follow.
• Each club should have a COVID-19 liaison/committee responsible for staying up to date on community and state recommendations and any associated changes.
• Each club should have a point person responsible for the club’s Return to Competition plan.
• Mandated capacity limits must be followed.
• Until further notice, eliminate or reduce use of low ventilated spaces as well as rooms that prevent social distancing, (e.g., locker rooms and small dryland rooms) to the extent feasible.
• Until further notice, ingress to facility must include health screening questions and should include temperature screening either at the facility or prior to arrival, no person shall be admitted with a temperature over 100.4 F or in accordance with CDC or local health department recommendations.
• Until further notice, athletes should arrive in their suits and depart in suits if possible. Locker rooms use should be minimized.
• Until further notice, coaches, officials, spectators (parents), should wear masks.
• All expectations for the aforementioned protocols should be communicated ahead of time in the meet announcement, event communication, and posted throughout the venue to ensure that all participants and observers are clearly aware of the requirements.

SAFE SPORT
• The USA Swimming Code of Conduct and the SafeSport Code for the U.S. Olympic and Paralympic Movements continue to apply in full.
• The Minor Athlete Abuse Prevention Policy (MAAPP) continues to apply in full.
• USA Swimming Safe Sport Best Practice Guidelines state that parents should be encouraged to appropriately support their child(ren)’s swimming experience and that all swimming practices should be open to observation by parents. This also applies to meet participation.
