**Enter On-Line at [usaswimming.org/ome](https://usaswimming.org/ome)**

Athletes must enter these events through USA Swimming's On-line Meet Entry System (OME).

Register for the Open Water National Championships on-line at [usaswimming.org/ome](https://usaswimming.org/ome) beginning noon Mountain Time on Tuesday, March 5, 2019 through 11:59 pm Mountain Time on Tuesday, April 23, 2019. There will be no race-day registration.

For help with the entries, contact Jaime Lewis at USA Swimming (719-866-3581) or [jlewis@usaswimming.org](mailto:jlewis@usaswimming.org).

You will be required to pay for the on-line entries with a Visa, Mastercard, American Express or Discover.

OME is not an eligibility report; It is the coaches responsibility to know what events your athlete is qualified for.

Once you complete your entry, you will be sent confirmations via e-mail. Please keep all of these and bring them with you to the meet (just in case).

Drug waiver forms will automatically be sent to you via e-mail after you submit your entry. Please have these filled out and bring them with you to the event.

For late entries or new qualifiers, email Jaime Lewis at [jlewis@usaswimming.org](mailto:jlewis@usaswimming.org) with the swimmer's name, date of birth, event to be entered, and qualifying time or criteria. Additional fees may apply for late entries. Payment for late entries or new qualifiers will need to be made to the host on site.

For those that qualified through 2018-2020 Open Water Domestic Event Selections use the override option in OME. You will enter a time within the qualifying standard and use the race (and date of the race) that the swimmer qualified in as the meet for the override time.

**Rules**

Current USA Swimming Rules and Regulations will govern this event. Please see Part Seven of the USA Swimming Rules & Regulations for complete list of Open Water Rules.

**Selected Open Water Rules;**

**Race Course and Operations**

The race course will consist of loops around a 1.66km course, with large buoys at each turn, and intermediate buoys lining the course.

A “feeding” station will be located near the halfway point of the 10K course, and will be accessible by land. The use of feed sticks by coaches will be permitted. It is the swimmer’s responsibility to coordinate with their coach or another individual for feeding purposes. No volunteers will be specifically available for this purpose. Feed poles are not to exceed 5 meters in length when extended. No objects, rope or wire may hang off of feed poles except banners or flags, but may not exceed the size of 30 cm x 20 cm.

Aside from Safety and Officials’ boats, no additional craft will be allowed near the race course. This is a non-escorted swim.

These races will utilize electronic “chip” timing, and swimmers will wear one timing chip on each arm.

The swimmers must swim within the finish chute and will finish by touching a finish banner over the water’s surface.

Toe nails and finger nails will be checked before the race by the Head Referee or their designee. If the nails are too long, they must be cut to a reasonable length at the discretion of the Referee.

**Parking**

Ample parking will be available at the venue.

**Weather Contingency**

In the event of adverse conditions, the following re-scheduling priorities will be used based on weather predictions, and at the discretion of the Meet Referee:

- Priority 1 - Later during the race day
- Priority 2 - On the following day(s)

**Hotels**

The headquarters hotel will be the Marriott Biscayne Bay, 1633 N Bayshore Dr, Miami, FL 33132, (305) 374-3900. The host has secured a rate of \$169/night at this hotel. Rooms can be booked at; [https://book.passkey.com/e/49825205?utm\\_source=2840&utm\\_medium=email&utm\\_campaign=281726409&trkid=510728558&linkid=1756844905](https://book.passkey.com/e/49825205?utm_source=2840&utm_medium=email&utm_campaign=281726409&trkid=510728558&linkid=1756844905).

**Phillips 66 Athlete Reimbursement**

Reimbursement is for 10K competitors only.

Eligibility Criteria

- a. Athletes must be US citizens and eligible to represent the United States in International competition.
- b. For the 2019 10K Open Water Nationals, reimbursement is based on results from the current and previous year's Championships.
- c. Local athletes who qualify via the rankings are eligible to receive funding.

Application Process

- a. USA Swimming Athlete Services staff will compile a list of all athletes eligible to receive funding and the amount of funding each athlete will receive.
- b. Coaches who have athletes on this list will be contacted via email following the competition to clearly designate if the funds should be sent to the Club or to the Athlete. Note: NCAA athletes may not receive funds directly; funds must be sent to the club. USA Swimming Athlete Services staff will notify, via email, all funding recipients to request a current w-9 form, if needed, and verify the appropriate address.
- c. The list of recipients/funding will be sent to the Times and Recognition Committee Chair for checks and balances.
- d. Reimbursement Structure:
  - ◆ Current Year National Team Member: \$675
  - ◆ Top 6 American Finishers from the 2018 10K National Championships: \$375
- e. Checks will be mailed directly to the address provided by the recipient. Coaches and Athletes must take the responsibility to make sure the funds are sent to the appropriate recipient. USA Swimming is not responsible for lost checks or checks mailed to the incorrect address.
- f. USA Swimming staff will work for disbursement of funds 2 weeks from the final day of the competition

## Event Safety Information

### Safety Information

The event safety plan will be posted soon.

## Doping Control

### **The 2019 Open Water Nationals are subject to Doping Control.**

All athletes at this competition are subject to drug testing conducted by the United States Anti-Doping Agency (USADA), WADA, and/or FINA under the In-Competition Testing program. This section is intended to give an overview of the key points relevant to this program and the testing which will be conducted at the competitions governed by this booklet. **Athletes should** visit <http://www.usada.org/athletes/antidoping101/> for important information that all athletes, coaches, and their parents must be aware of. Key details from that document are listed below. Athletes should check their medications prior to use and note that **some medications may require approval that will take at least 21 days.**

### **What substances are banned?**

Per USADA: "As a signatory to the World Anti-Doping Code, USADA tests for substances and methods found on the World Anti-Doping Agency [Prohibited List](#). It's important that athletes are aware of the substances and methods on the Prohibited List, as an athlete is responsible for any prohibited substance found in their body, regardless of intent. It's also important to understand that certain substances are prohibited at all times, while others are prohibited only during competition. In some cases, a substance is only prohibited in a certain sport. Use the resources on this tab in conjunction with the next step about medication and the resources available pertaining to medication to determine whether or not a substance is prohibited."

### **What about medication?**

Per USADA: "Athletes need to be aware of the prohibited status of any medication they are taking, whether it be an over-the-counter or prescription medication. The easiest way to understand your medication is to use USADA's Global DRO service where generic and name brand products, or specific medications, can be searched. Results will yield information including the in- and out-of-competition status, any threshold information, as well as sport specific information for those substances prohibited only in certain sports. Athletes or their support team can also speak to an expert by phone during business hours [8am – 5pm Mountain Time Monday-Friday] by calling Athlete Express at 719.785.2000. The USADA wallet card also provides information on the most commonly ingested medications. If and when a medication is prohibited, athletes may choose to stop taking or replace the medication with a non-prohibited substance or explore the Therapeutic Use Exemption process. Your health is your first priority. Any decision to stop or start a medication should be made in consultation with your medical provider. It's important to understand that Dietary Supplements are not medication. They are regulated and manufactured differently. For these reasons, USADA is unable to provide guidance on specific dietary supplement products. For more information visit USADA's Supplement 411 resource."

### **Therapeutic Use Exemptions?**

Per USADA: "In some situations, an athlete may have an illness or condition that requires the use of medication listed on the World Anti-Doping Agency's Prohibited List. A Therapeutic Use Exemption or TUE provides permission for an athlete to have a prohibited substance in their body at the time of a drug test. The process for obtaining a TUE is thorough and balances the need to allow athletes access to critical medication while upholding clean athletes' rights to compete on a clean and level playing field. In some cases, the TUE requirements are different for national-level athletes vs. non-national level athletes. Athletes interested in obtaining a TUE should visit the Therapeutic Use Exemption page, where they can determine if they need a therapeutic use exemption, begin the application process, and find answers to the most frequently asked TUE questions."

### **NCAA:**

Approval to use a medication in NCAA Competitions is different than approval to use a medication in USA Swimming meets, and the status of medications may differ between NCAA and the WADA Prohibited List. Athletes should check with USADA immediately to confirm the status of all medications and ensure any necessary documentation is on file with USADA.

### **Understand the Sample Collection Process:**

Per USADA: "Athletes selected for testing are subject to both blood and urine testing. The processes are designed to be both effective in preserving the integrity of the sample, yet safe and comfortable for the athlete. Understanding the processes as well as an athlete's rights and responsibilities can help to make them less intimidating. There are additional considerations for minor athletes and disabled athletes. Learn more about the [sample collection processes.](#)"

NOTE: Minor athlete should always have a representative with them in doping control.

Per established doping control testing protocol a Witnessing Chaperone must directly observe an athlete providing a sample. The witnessing chaperone is always someone of the same gender as the athlete. To protect the rights of a minor athlete, someone must observe the witnessing chaperone observing the athlete as they provide a urine sample. That person cannot see the athlete – they can only see the witnessing chaperone watching the athlete. Per USADA's established protocol the athlete has the right to choose who will be in that role. In the event that a coach acts as an Athlete Representative for an athlete of the opposite gender, they may request that someone on USADA's crew observe the witnessing chaperone observing the athlete. Then the coach can be the athlete representative for the rest of the processing of the paperwork.

### **Doping Control rule for athletes previously eligible for out of competition drug testing:**

Athletes who were previously eligible for out of competition (no-advance-notice) doping control and officially retired have a 6 month waiting period before they can compete (should they choose to return to competition) and must again be subject to out-of-competition testing during this reinstatement period. The athlete is not permitted to compete in any USA Swimming sanctioned events (local competitions all the way up through National competitions including meets with a dual sanction from Masters and USA Swimming), FINA sanctioned events or events sanctioned by other organizations that are signatories of the WADA code. If you have an athlete in this situation, please email [smichael@usaswimming.org](mailto:smichael@usaswimming.org) immediately.
