

SwimRVA is excited to offer the SPIIDEO streaming service for 2021 Long Course FUTURES meet in Richmond, VA! Please use the following instructions to sign up for the video stream for the upcoming meet at SwimRVA. There are a few important things to note:

- Read and follow the instructions below completely. There are two parts to gaining access.
- If you already have access from a previous meet, you SHOULD NOT request access again.
- The stream is provided through a service called SPIIDEO, and recordings of all sessions will be available to replay for two weeks after the event. Spiideo is available via an app for iOS devices or web browser for android or PC.
- **Please sign up before the start of the meet to ensure access to the contest.** SwimRVA will be processing requests throughout the meet, but cannot guarantee immediate access. We will be working diligently to update users ASAP.

PART 1 – Create SPIIDEO account

For IOS Users:

- Download "Spiideo" on your iPhone or iPad and create an account using the app. Be sure to create an account using the options to "Create account with Email". You should **NOT** use the options to create an account with Google or Apple.

For Android/PC Users:

- Go to spiideo.net and click the blue button that says "Sign In with your Email"
- Then click "Create a new Spiideo account" and follow the prompts. You should **NOT** use the options to create an account with Google or Apple.

PART 2 – Requesting Access by reporting your Spiideo account to SwimRVA

For All Users: Please report your name, team affiliation and email address used to create the Spiideo account using the link here.

<https://forms.gle/YqVgkGrkiiMwnH8Y9>

After you submit this information SwimRVA will approve your account and grant access. **It is important that you do not make any typos when reporting your email address**, as it can prevent your account from being added to the stream.

Once SwimRVA completes the steps to give you access, you will go to the **RECORDINGS** section in the SPIIDEO tool to view the stream. If you see a video titled SwimRVA Manifesto in this section, that means you will see the meet as it goes live! All sessions will go live about 10 minutes before the start of each session.
