Re: 2025 U.S. Open: Automatic Officiating Equipment and Supplemental Cameras

Rule:

102.21.15 Video replay footage from cameras approved in writing in advance of the competition by the Program & Events Coordinator (or his/her designee) may be used to ensure that the rules related to the style of swimming designated for the event are being observed, and to observe the starts, turns, and finishes.

In accordance with 102.21.15 the following cameras are designated for use:

1. OMEGA overhead video timing system
2. NBC Sports live feed broadcast cameras

Underwater Video Review with cameras from DV Sport will not be used at U.S. Open held on December 3-6 of this year, however, Omega touchpads and overhead cameras are available to you for adjudication of calls by deck officials and confirmation of timing and starts. In addition, NBC cameras placed at the turn end may be used for the equitable evaluation of the starts of all 50-meter events.

I hope this meet is a great success for all!

Respectfully,
Kathleen
