Any member who chooses to leave USA Swimming during this 24-month period and wishes to stop the monthly updates must notify USA Swimming’s Member Services Department in writing that such member has resigned their membership. The monthly update will be discontinued within 30 days following receipt of the member’s notice of resignation. Depending on the scheduled monthly update and the date of resignation, one monthly update may occur following the notice of resignation.

Date of adoption / Last revision: June 27, 2022

The USA Swimming Safe Sport Club Recognition program allows a USA Swimming member club to demonstrate its commitment to creating a healthy and positive environment free from abuse for all its members through the development and implementation of club governance measures, Safe Sport policies and reporting mechanisms, Safe Sport best practices, and training to athletes and parents.

Denying a Safe Sport Club Recognition Application

If a coach, registered official, club board member, or club owner is under investigation for or is the subject of an open case with the U.S. Center for SafeSport and/or USA Swimming for the issues listed below, USA Swimming may, at its sole discretion, deny recognizing the club as a Safe Sport Recognized Program or hold the club's application for Safe Sport Recognized Program designation pending the resolution of the matter.

- a. Potential violations for which a club may be denied Safe Sport Recognized Program designation include, but are not limited to:
- b. Violations of the U.S. Center for SafeSport Code for the Olympic and Paralympic Movements and/or the USA Swimming Code of Conduct;
- c. Violations of the Child Abuse Reporting Requirements;
- d. Multiple reported violations of club or USA Swimming policies, including, but not limited to, MAAPP, the Action Plan to Address Bullying and/or the Photography Policy; and/or
- e. Falsely representing or promoting the club as a Safe Sport Recognized Program prior to achieving such status.

A member club will be ineligible for recognition during any year in which a coach member registered with the club has served or is serving a period of (i) probation; (ii) temporary suspension; (iii) suspension; or (iv) ineligibility for an adjudicated or alleged violation of the SafeSport Code for the Olympic and Paralympic Movement or USA Swimming's Code of Conduct. Such club will remain ineligible for recognition until the first membership year after any such period of probation, temporary suspension, suspension, or ineligibility is completed.

USA Swimming will communicate to the club in writing of a decision to deny a Safe Sport Recognized Program application or a decision to hold the club's application for Safe Sport Recognized Program designation pending resolution of the matter. The communication will include recommended steps the club should complete prior to renewing an application for Safe Sport Recognized Program designation.

Revoking Safe Sport Club Recognition Designation

In order to maintain the integrity of the Safe Sport Club Recognition designation, USA Swimming may, in its sole discretion, remove such designation from a member club for an adjudicated violation by the U.S. Center for SafeSport and/or USA Swimming of a coach, official, athlete, club board member or club owner for violations including, but not limited to, the following:

- Violations of the U.S. Center for SafeSport Code for the Olympic and Paralympic Movements and/or the USA Swimming Code of Conduct;

16.0 USA Swimming Safe Sport Athlete Protection Education Policy

Date of adoption / Last revision: July 2023

Background

Since 2010, USA Swimming has required athlete protection education of all non-athlete members of USA Swimming. Further, the Protecting Young Victims from Sexual Abuse and Safe Sport Authorization Act of 2017 requires that USA Swimming, as the National Governing Body for the sport of Swimming, offer and provide consistent training to all adult members who are in regular contact (e.g., ongoing interactions during a 12-month period wherein the individual is in a role of direct and active engagement) with amateur athletes who are minors, and, subject to parental consent, to members who are minors, regarding prevention and reporting of child abuse.

The U.S. Center for SafeSport requires any of the following individuals who has regular contact with or authority over minor athletes to complete athlete protection education:

- a. USA Swimming members
- b. Employees or board members of USA Swimming, Zones, LSCs, or member clubs
- c. Individuals within the governance or disciplinary jurisdiction of USA Swimming, Zones, LSCs or member clubs; and
- d. Individuals who are authorized, approved or appointed by USA Swimming, Zones, LSCs or member clubs to have regular contact with or authority over minor athletes.

Mandatory Training for Adult Members

The mechanism by which USA Swimming requires and tracks athlete protection education is through the privileges and responsibilities of membership. As set forth in Article 2.6.3 of the USA Swimming Bylaws, all adult members of USA Swimming, including athletes and junior coach members, must have satisfactorily completed athlete protection education as a condition of membership. Membership will not be conferred to an adult member of USA Swimming unless and until athlete protection education is satisfactorily completed. The following are required to be members of USA Swimming:

- a. Employees of USA Swimming, Zones, LSCs and member clubs;
- b. Individuals serving on the board of directors of USA Swimming, Zones, LSCs and member clubs;
- c. Volunteers of USA Swimming, Zones, LSCs and member clubs who interact directly and frequently with* or have authority over athletes as part of their regular duties (note: this does not include timers, meet marshals, computer operators, etc., who only have limited contact with athletes during a meet);
- d. Personal care assistants hired or appointed by USA Swimming, Zones, LSCs and member clubs, who act in a coaching capacity and/or who have direct and frequent contact with minor athletes other than those to whom they provide care; and
- e. Individuals with any ownership interest in a member club.

As required by the U.S. Center for SafeSport, individuals subject to this policy must complete athlete protection education on an annual basis. Upon initiating membership with USA Swimming or beginning a new role subjecting the individual to Article 2.6.3 of the USA Swimming Bylaws, the individual must complete the SafeSport™ Trained Core course before participation. Upon completion, the individual's member record will update with a training requirement expiration date one year from the date of completion. Individuals can renew the athlete protection education requirement as early as 90 days prior to their expiration date by taking the appropriate refresher course. After completing three refresher courses in successive years, the individual will be required to start the training cycle anew with the SafeSport™ Trained Core course. If an individual permits their athlete protection education to lapse by failing to renew prior to the expiration date or by otherwise allowing membership to lapse, the individual will be required to retake the SafeSport™ Trained Core course again.

USA Swimming members are required to complete the athlete protection education through USA Swimming University accessed at <https://university.usaswimming.org/landing>.

Minor Athlete and Parent Training

USA Swimming will, on an annual basis, offer and give training to parents and minor athletes (subject to parental consent) on the prevention and reporting of child abuse. Free online training courses for parents and minor athletes on the prevention and reporting of child abuse are available any time at <https://university.usaswimming.org/landing>.

Exemption for Victims/Survivors

Completing the required athlete protection education may be triggering or re-traumatizing for victims/survivors. Exemptions for this requirement may be made on a case-by-case basis. Requests should be sent to safesport@usaswimming.org. Requests may also be made directly to the U.S. Center for SafeSport at exemptions@safesport.org.

Individuals with Limited English Proficiency

The U.S. Center for SafeSport provides the required athlete protection courses in English, Spanish, French. An individual subject to this policy may request an exemption from this Policy as a result of limited English proficiency by contacting safesport@usaswimming.org.

*Defined as ongoing interactions during a 12-month period wherein the individual is in a role of direct and active engagement.

17.0 Athlete Protection Training Requirement – Adult Athletes with Cognitive Disabilities

Date of adoption / Last revision: July 2023

The U.S. Center for SafeSport requires that USA Swimming provide regular and consistent training for all adults, including adult athletes, who interact with and have direct contact with minor athletes. USA Swimming requires, as a condition of membership, all athlete members age 18 and over complete Athlete Protection Training.

USA Swimming recognizes that the required training course may not be appropriate for some adult athlete members with cognitive disabilities. For any such adult athlete member, USA Swimming recommends the following:

1. If the Athlete Protection Training Course is appropriate for the adult athlete's cognitive level, the adult athlete should complete the Athlete Protection Training course with a parent or legal guardian(s).
2. If the Athlete Protection Training course is not appropriate for the adult athlete's cognitive level, the adult athlete should complete the most developmentally age-appropriate training offered by the U.S. Center for SafeSport (<https://athletesafety.org/training/index>). Once the age-appropriate training is completed, the completion certification shall be sent to safesport@usaswimming.org. USA Swimming will update the athlete's member record to reflect that the training requirement is complete.
3. If none of the available trainings are cognitively appropriate for the adult athlete, the athlete's parent or legal guardian shall send an email explaining the circumstance to safesport@usaswimming.org. USA Swimming will update the athlete's member record to reflect that the training requirement is complete.

It is the responsibility of every athlete member to ensure the annual training requirement is met applying the criteria provided above.

Please contact USA Swimming at safesport@usaswimming.org with any questions.

18.0 USA Swimming Personal Assistant Policy

Date of adoption / Last revision: July 30, 2025

A Personal Assistant¹ is an individual who assists an athlete requiring help with activities of daily living and preparation for athletic participation. Personal Assistants provide support unique to the needs of the athlete(s) in their care. This support may include, but is not limited to, mobility guidance, assistance with transfer, entering/exiting the pool, dressing, showering, toileting, medication administration, and communication. Some athletes require Personal Assistants to enable successful participation in the sport, while others need help to assure personal safety in practice and meet environments.

Identification and Approval of the Use of Personal Assistants

Coaches may approve the use of Personal Assistants at practice and Meet Referees may approve the use of Personal Assistants for meets. It is recommended that coaches and referees ask the following questions to evaluate whether to approve a Personal Assistant:

1. Is the swimmer a swimmer with a disability?
2. Does the proposed modification facilitate participation by the swimmer with a disability?
3. Is the proposed modification fair to other swimmers in the event?
4. Is the proposed modification feasible?
5. Will this assistant have frequent contact with athletes? If so, are they a registered USA Swimming Member and have they been background checked and completed Athlete Protection Training?

Required USA Swimming Membership

Personal Assistants hired or appointed by USA Swimming, Zones, LSCs, and member clubs, who have authority over athletes, such as in a coaching capacity, and/or who have direct and frequent contact with minor athletes other than those to whom they provide care must be members of USA Swimming. Personal Assistants who are only acting in this role at occasional meets and practices, no more than a dozen in a 12-month period, are not required to be a member of USA Swimming.

Specifically, a parent/legal guardian acting in the role of a Personal Assistant for their child whose care requires the parent/legal guardian to have frequent access to locker rooms, changing areas, or similar spaces where other Minor Athletes are present is required to be a member of USA Swimming.

Personal Assistants Exception to the Minor Athlete Abuse Prevention Policy

Subject to the conditions below, certain exceptions are available to certain sections of the Minor Athlete Abuse Prevention Policy. Specifically:

One-on-one In-Program Contact interactions between a Minor Athlete and a Personal Assistant of whom membership is required are not required to occur at an observable and interruptible distance from another adult only when:

- a. the Personal Assistant is a non-athlete member of USA Swimming; and
- b. the minor athlete's parent/legal guardian has provided written consent to USA Swimming for the Personal Assistant to work with the minor athlete.

¹ A Personal Assistant for USA Swimming purposes is also known as a Personal Care Assistant in the U.S. Center for SafeSport Model MAAPP. This Personal Assistant Policy is consistent with the Center's Model MAAPP requirements and has been reviewed and approved by the U.S. Center for SafeSport.

In-Program one-on-one individual training sessions outside of the regular course of training and practice between a Personal Assistant of whom membership is required and minor athletes are not required to be observable and interruptible by another adult only when:

- a. the Personal Assistant is a non-athlete member of USA Swimming; and
- b. the minor athlete's parent/legal guardian has provided written consent for the Personal Assistant to work with the minor athlete.

One-on-one Electronic Communications between a Personal Assistant of whom membership is required and a minor athlete are not required to copy or include the minor athlete's parent/legal guardian only when:

- a. the Personal Assistant is a non-athlete member of USA Swimming; and
- b. the minor athlete's parent/legal guardian has provided written consent for the Personal Assistant to work with the minor athlete.

A Personal Assistant of whom membership is required may transport a minor athlete one-on-one during In-Program Travel and is not required to transport at least two minor athletes or another Adult Participant only when:

- a. the Personal Assistant is a non-athlete member of USA Swimming; and
- b. the minor athlete's parent/legal guardian has provided written consent for the Personal Assistant to work with the minor athlete.

A Personal Assistant of whom membership is required may share a Lodging or a Residential Environment² an athlete, may have In-Program Contact in a Lodging or Residential Environment location during In-Program Travel that is not observable and interruptible and is not required to follow two-deep leadership and maintain observable and interruptible environments when doing room checks during In-Program Travel only when:

- a. the Personal Assistant is a non-athlete member of USA Swimming; and
- b. the minor athlete's parent/legal guardian has provided written consent for the Personal Assistant to work with the minor athlete; and
- c. the minor athlete's parent/legal guardian has provided advance, written consent for the lodging arrangement.

Personal Assistants of whom membership is required are permitted to be with and assist minor athlete(s) in locker rooms, changing areas or similar spaces where other Minor Athletes are present.

Refer to the Minor Athlete Abuse Prevention Policy for a full list of definitions used in this policy.

Are Personal Assistants Covered by USA Swimming Insurance?

USA Swimming members engaging in covered activities with USA Swimming member clubs are covered by the USA Swimming provided general liability insurance. The USA Swimming provided general liability insurance is not affected by the activities of Personal Assistants of whom membership is not required but the USA Swimming provided excess accident insurance does not cover injuries resulting from or directly related to the actions of Personal Assistants who are not members of USA Swimming.

² Lodging and Residential Environment are defined by the Minor Athlete Abuse Prevention Policy.

19.0 Athlete Inclusion, Competitive Equity, and Eligibility Policy

Date of adoption / Last revision: September 16, 2025

1. Purpose

Pursuant to the Ted Stevens Olympic & Amateur Sports Act, 36 U.S.C. § 22501, et. Seq. (the “Act”), the U.S. Olympic & Paralympic Committee (“USOPC”) has certified USA Swimming as the national governing body for the sport of swimming, and this certification is dependent upon continued compliance with the requirements of the USOPC and the Act. If the USOPC and/or Congress find that USA Swimming is not in compliance with the USOPC’s requirements and/or the Act, the USOPC and/or Congress may sanction USA Swimming, up to and including decertification as the national governing body for the sport of swimming.

USA Swimming is committed to protecting opportunities for athletes participating in sport. As mandated by the USOPC, and pursuant to the Act, USA Swimming must continue to collaborate with various stakeholders with oversight responsibilities (e.g., the International Olympic Committee, World Aquatics, etc.) to ensure that women have a fair and safe competition environment consistent with [Executive Order 14201](#) and the Act. As required by Executive Order 14201, the definitions in [Executive Order 14168](#)¹ shall apply to this Competition Category Policy (this “Policy”).

2. Application of this Policy

This Policy applies to all current and prospective athlete members of USA Swimming when competing in USA Swimming sanctioned meets. It supersedes all previous policies and prior decisions by USA Swimming addressing whether an athlete may compete in the Women’s Competition Category.

3. Men’s Competition Category

The Men’s Competition Category is open to all athletes who (a) meet the Executive Order’s definition of “men” or “boys”; (b) have transitioned, or are transitioning, to a male sex assignment; or (c) identify as non-binary. Those seeking to compete in the Men’s Competition Category, who do not meet the Executive Order’s definition of “men” or “boys”, must complete the Self-Identity Verification form, found [here](#), at least thirty days prior to the start of the first competition in which the athlete seeks to compete in the requested Competition Category. If the form is completed and signed by the athlete (or their legal guardian, if under eighteen years of age), USA Swimming will approve the Competition Category change. If an athlete is seeking to rescind a prior request to change Competition Categories, they should contact USA Swimming’s Secretary & General Counsel, with contact information found [here](#).

4. Women’s Competition Category

Only athletes who meet the Executive Order’s definition of “women” or “girls” may compete in the Women’s Competition Category. In registering for membership in the Women’s Competition Category, an athlete represents and warrants that they meet the Executive Order’s definition of “woman” or “girl.”

5. Applicability of World Aquatics Eligibility Rules

Effective June 20, 2022, World Aquatics implemented a Policy on Eligibility for the Men’s and Women’s Competition Categories (the “World Aquatics Policy”). (<https://resources.fina.org/fina/document/2022/06/19/525de003-51f4->

¹ (a) “Sex” shall refer to an individual’s immutable biological classification as either male or female. “Sex” is not a synonym for and does not include the concept of “gender identity.”

(b) “Women” or “woman” and “girls” or “girl” shall mean adult and juvenile human females, respectively.

(c) “Men” or “man” and “boys” or “boy” shall mean adult and juvenile human males, respectively.

(d) “Female” means a person belonging, at conception, to the sex that produces the large reproductive cell.

[47d3-8d5a-716dac5f77c7/FINA-INCLUSION-POLICY-AND-APPENDICES-FINAL-.pdf](#)). For an athlete to participate in any World Aquatics Competition, the athlete must first satisfy the eligibility criteria set forth in the World Aquatics Policy. If the World Aquatics Policy is subsequently revised, appropriate revision to this Policy will be considered. For an athlete to be selected by USA Swimming to a World Aquatics competition, they must also meet this Policy.

5. Other Eligibility Requirements Not Affected

Except as set forth herein, the application of this Policy shall not affect eligibility requirements or rules otherwise set out in USA Swimming's Rules and Regulations or the Operating Policy Manual.

6. Compliance with Anti-Doping Rules

Nothing in this Policy shall affect an athlete's obligation to fully comply with the Anti-Doping Rules of United States Anti-Doping Agency, the USOPC, World Aquatics, USA Swimming, or the organizer of an event in which the athlete competes. If the use of a substance on the World Anti-Doping Agency Prohibited List is contemplated in connection with a gender transition, then the athlete must first obtain a Therapeutic Use Exemption from the U.S. Anti-Doping Agency before that substance is used.

8. Appeals

Only USA Swimming may challenge an athlete's Competition Category. If USA Swimming seeks to challenge an athlete's Competition Category, based upon the athlete's membership registration, as a violation of this Policy, it may do so pursuant to Rule 304.3.9 of the Code of Conduct (i.e., "[a]ny act of fraud, deception or dishonesty in connection with any USA Swimming-related activity"). The National Board of Review Procedures in Policy 26 of the USA Swimming Operating Policy Manual will apply to such challenge. - b) Determine an individual's eligibility and right to participate;
- c) Vacate, modify, sustain, reverse, or stay any decision or order properly submitted on appeal, or remand the matter for further action;
- d) Investigate any election impropriety (other than allegations of violations of the campaigning rules in Corporate Bylaw 6.3.3(D), which will be referred to the USA Swimming Ethics Committee) or cause for removal of a national officer or national committee member and take corrective action;
- e) Interpret any provision of the Rules & Regulations of USA Swimming with the exception of the technical rules (Parts One and Seven);
- f) Review any revocation, suspension, or reinstatement of membership, or challenge the granting or denial of membership; and
- g) Issue such orders, prohibitory or mandatory in nature, as may be necessary pending a final decision of the NBOR.

IV. Filing of Complaints, Initial Inquiry and Investigation

- a. Filing of Complaints
 - 1. All complaints within the exclusive jurisdiction of the NBOR as set forth above shall set forth the allegations and shall be filed in writing with the President & CEO (or their designee, collectively, the "CEO"), the Secretary & General Counsel (or their designee, collectively the "General Counsel"), and the Chair of the Board of Directors (the "Board Chair").
 - 2. A complaint may be filed online via USA Swimming's online reporting tool at: <https://fs22.formsite.com/usaswimming/ViolationReportingForm/index.html>.
 - 3. A copy of reports filed online will be sent to the CEO, the General Counsel, and the Board Chair.
- b. Initial Inquiry
 - 1. Upon receipt of a filed complaint, the CEO shall promptly perform an initial inquiry. The initial inquiry is intended to determine whether the complaint satisfies the personal and subject matter jurisdiction of the NBOR, including whether the factual allegations—if taken as true—give rise to an actionable claim. It is anticipated that the initial inquiry will take no longer than ten business days.
- c. Investigation of Complaints
 - 1. If a complaint survives initial inquiry, the CEO shall initiate an investigation, anticipated to take no longer than six weeks, of the matter as follows:

- i. In matters involving allegations of physical abuse of an athlete by a coach, a committee of three coaches appointed by the Board Chair shall make a determination with such investigative assistance by the CEO as the committee may request and report as to whether the coach's conduct is outside the customary and acceptable bounds of coaching. If such matter is referred to the U.S. Center for SafeSport, the SafeSport Code or the Olympic and Paralympic Movement shall apply.
 - ii. In those matters involving allegations under USA Swimming's Whistleblower and Anti-Retaliation Policy, the Ethics Committee shall make the investigation and report.
 - 2. In all other matters, the CEO shall make the investigation and report.
 - 3. Upon the initiation of an investigation beyond the initial inquiry stage, a notice of investigation will be sent to the subject of the complaint, as well as the club's head coach and/or Board president, if applicable. The notice of investigation will include a statement as to which USA Swimming rule was allegedly violated.
 - 4. Dismissal of Complaints
 - i. During the initial inquiry and/or the investigation, a complaint may be dismissed for reasons including, but not limited to:
 - ii. The reporting party declined to participate;
 - iii. There is insufficient evidence to support the claims; or
 - iv. There is no remedy available, even if the claims are found to be supported.
 - d. The initial inquiry and/or the investigation may include the following steps, among others:
 - i. A review of relevant documentation or policies; and/or
 - ii. Interviews with the witnesses.

V. Disposition After Investigation

After the initial inquiry and investigation have been completed, the CEO may attempt to settle the matter with the opposing party or decide to initiate a complaint in the name of USA Swimming by filing the complaint with the Chair of the NBOR ("NBOR Chair") and requesting a hearing.

Any decision by the CEO not to forward a complaint to the NBOR following an investigation shall be reviewed by the Board Chair for a final decision. The CEO may also seek an emergency hearing as set forth below in Section VII.

If the CEO does not initiate a complaint in the name of USA Swimming, then the CEO may:

- a. Cause further investigation to be conducted into the alleged violations;
- b. Seek to mediate or settle the complaint; or
- c. Advise the complaining party that while USA Swimming will not initiate a complaint in its own name, the complaining party may request USA Swimming assist with mediating the complaint or the complaining party may file their complaint directly with the NBOR Chair by submitting a petition directly to the NBOR Chair. USA Swimming shall share the procedural history of the complaint with the NBOR Chair, to confirm that the matter is properly before the NBOR Chair; USA Swimming may further share its investigation with the NBOR Chair to assist with the NBOR Chair's assessment of the matter.

If the investigation is conducted by the Ethics Committee under USA Swimming's Whistleblower and Anti-Retaliation Policy, after the investigation is complete, the Ethics Committee may decide to initiate a complaint in the name of the Ethics Committee by filing a petition with the NBOR Chair and requesting a hearing. If the Ethics Committee does not file a petition with the NBOR Chair, it may advise the complaining party that, while the Ethics Committee will not initiate a complaint in its own name, the complaining party may still file their petition with the NBOR Chair. The Ethics Committee shall share the procedural history of the complaint with the NBOR Chair, to confirm that the matter is properly before the NBOR Chair; the Ethics Committee may further share its investigation with the NBOR Chair to assist with the NBOR Chair's assessment of the matter.

VI. Settlement Agreements

Any settlement agreement between the parties must be memorialized in writing and submitted to the NBOR Chair. The NBOR Chair may then decide whether to accept or reject the settlement agreement. If the NBOR Chair accepts

the settlement agreement, they will issue an order documenting that decision. If the NBOR Chair issues such order, no further investigation into the complaint is warranted, and the complaining party may not file their complaint directly with the NBOR Chair pursuant to Paragraph V(c).

VII. Expedited Procedures and Emergency Hearing

- a. After the investigation, the CEO or other petitioning party may seek expedited procedures and/or an emergency hearing. Upon such request, the NBOR Chair may order an emergency hearing before the NBOR to determine (1) if the member should be suspended and/or (2) only in the case of an athlete being dismissed from an international team, whether the dismissal was warranted. If an emergency hearing is ordered, the NBOR shall conduct the hearing and publish its results within twenty-one days. Until the NBOR makes a decision, all proceedings shall be confidential and not subject to disclosure to anyone other than the parties and witnesses. The Ethics Committee may also seek an emergency hearing. Any decision made at an emergency hearing will remain in effect pending the outcome of a full hearing before the NBOR.
- b. Any athlete seeking expedited procedures and/or an emergency hearing regarding their removal from an international team should reference the selection procedures for the international team in question for the process to file a complaint.

VIII. Pre-Hearing Matters

- a. Petition
 1. For matters initiated in the name of USA Swimming, the CEO shall send a petition and the results of the investigation to the NBOR Chair. For matters not initiated in the name of USA Swimming, a complaining party may submit a petition directly to the NBOR Chair.
 2. Once a petition is submitted, the NBOR Chair shall have 14 days, unless there is just cause for a delay, to decide whether to assign the matter for a hearing or dismiss the complaint. If the NBOR Chair decides to assign the matter for a hearing, the NBOR Chair will empanel a hearing body and issue a Notice of Hearing.
- b. Hearing Panel Composition
 1. Each case submitted to the NBOR shall be assigned by the NBOR Chair to a panel consisting of members of the NBOR Committee, unless conflicts or other reasons require panel members who are not members of such Committee. The appointment of any member to a hearing panel who is not a member of the NBOR Committee shall be confirmed by the Board Chair and the General Counsel.
 2. Each hearing panel shall consist of not fewer than three members and not more than five members, with a sufficient number of eligible athlete representatives so as to satisfy the requirement that such athletes constitute one-third of the hearing panel, to hear and decide the case. If the content of a matter before the NBOR involves governance, finance or elite athletes, the panel must be comprised of one-third 10-Year Athlete representatives. Each hearing panel will have a hearing panel Chair who shall be the NBOR Chair or a Vice Chair of the NBOR.
 3. Conflict of interest disclosure forms will be distributed to each member of the NBOR Committee annually. Additionally, when empaneling a hearing panel, the NBOR Chair will distribute a conflict of interest form to each potential panel member and the General Counsel will review the conflict of interest disclosure forms prior to empaneling members for a hearing. An alleged failure to disclose a conflict of interest will be submitted to the Ethics Committee for review under the USA Swimming Statement of Ethics and Conflict of Interest Policy.
 4. Hearing panel members and Board of Directors appeal panels shall:
 - i. Uphold the integrity and independence of the respective hearing panel;
 - ii. Avoid any impropriety or the appearance of impropriety in connection with service as a hearing panel member and swimming-related activities generally; and
 - iii. Perform the duties of a hearing panel member impartially and diligently.
 5. Hearing panel members shall recuse themselves from participating in any matter pending before their respective hearing panel:
 - i. In which their impartiality might be reasonably questioned;

- ii. Where they have a personal bias or prejudice concerning a party in the pending matter or have personal knowledge of disputed evidentiary facts concerning the pending matter (other than knowledge obtained as a hearing panel member or known generally to a substantial portion of the membership of the respective LSC or USA Swimming);
 - iii. Where they or a member of their family are a party or are likely to be a material witness in the pending matter;
 - iv. Where they or a member of their family have an interest that could be substantially affected by the outcome of the proceeding; or
 - v. Where they or a member of their family have served or are serving as counsel in the pending matter or are members of a law firm that served or is serving as counsel in the pending matter.
 - 6. Hearing panel members shall recuse themselves as soon as they become aware of facts that give rise to the duty to do so by giving notice to the NBOR Chair, or in the case of the NBOR Chair or Board of Directors appeal panel members, to the General Counsel, as applicable.
 - 7. By written notice to the chair of the hearing panel or the General Counsel, in the case of Board of Directors appeal panel members, any party may request that a panel member recuse themselves or be disqualified from serving on the pending matter stating the reasons for recusal or disqualification with specificity. Such notice will be provided to the Ethics Committee by the chair of the hearing panel or the General Counsel. Such notice shall be given at least 14 days prior to the scheduled date of the hearing on such matter, or, if the party sustains the burden of proving good cause for the lateness of the notice, as soon as reasonably possible after discovery of the reason for the need for recusal. The named hearing panel member shall reach a decision on the matter and notify the Ethics Committee of that decision within seven days of receipt of the party's notice. If the member's decision is not in favor of recusal, then the Ethics Committee may, if appropriate, disqualify the member from participation in the pending matter. If there is no disqualification, the hearing shall be conducted as scheduled and, unless it is a hearing before the Board of Directors, the party giving the notice may appeal the disqualification decision, together with the hearing decision.
 - 8. In the event of a recusal or disqualification, a substitute hearing panel member shall be appointed in the same manner as the original hearing panel members were appointed.
- c. Notice of Hearing
- 1. The NBOR Chair shall set a hearing date, which shall be not less than forty-five nor more than ninety days from the date of issuance of the Notice of Hearing. The Notice of Hearing shall include the following:
 - i. The name of the Respondent(s).
 - ii. A statement of charge, which shall be set forth in sufficient detail to give the Respondent(s) reasonable notice of the charges and the facts supporting the charges, which shall include the Petition.
 - iii. The consequences or remedy requested if a violation is determined to have occurred.
 - iv. The name of the Petitioner(s).
 - v. The date the Response is due.
 - vi. The date, time, and place (or the fact that the hearing shall be conducted by conference call) of the hearing.
 - vii. The names of the members of the NBOR Panel.
 - viii. The possible penalties.
 - ix. The right of appeal and the time limit to file for an appeal.
 - x. Any other general information, including the right to be represented by counsel or other representative, to have witnesses testify, and to submit any and all evidence which is relevant to the issues.
 - xi. A reference to USA Swimming's Conflict of Interest Policy, which is required to apply to hearing panel members per Article VIII.b.3 of this Policy.
 - 2. The NBOR Chair shall deliver the Notice of Hearing, together with a copy of the Petition received by the CEO to the Respondent(s) and a copy of the Notice of Hearing to the Petitioner(s).
- d. Response

1. The Respondent(s) shall have thirty days from the date of issuance to submit a written Response to the charges, which may include a request for dismissal based on a lack of jurisdiction or failure to state a claim on which relief can be granted. The Response shall be delivered to the NBOR Chair, the CEO, and the Petitioner(s) or their counsel.
- e. Reply
1. The Petitioner(s) shall have ten days from the date of delivery of the Response to submit a written Reply. The Reply shall be delivered to the NBOR Chair, the CEO, and the Respondent(s).
- f. Time Limits
1. Upon showing of good cause, the NBOR Chair may decrease or increase the time limits for any of the foregoing.
- g. Pre-Hearing Matters
- The NBOR Chair is empowered to issue scheduling orders within a reasonable time period regarding briefs and rule on all pre-hearing discovery motions; witness lists (and reasonable limits on the number of witnesses that may be called at the hearing), exchange of hearing exhibits and similar pre-hearing matters, and otherwise make all procedural (including, without limitation, a request for a continuance), evidentiary, and technical decisions and rulings with respect to hearings (unless such matters arise during the hearing, in which case the hearing panel chair may make such decisions and rulings as they deem appropriate).

IX. Hearing

For hearings conducted other than through the receipt of written statements, the NBOR shall cause a recording or transcription to be made of the proceedings.

If a party provides advanced written notice that they are unavailable to attend the hearing at the scheduled time, the NBOR Chair shall reschedule the hearing at such date and time that all parties are available to attend. A hearing may proceed without a party if that party attempts to cancel a second scheduled hearing that they previously agreed to attend or if any party fails to be available at the appointed time without advance notice. However, judgement shall not be reached merely because of the person's absence. If the NBOR determines that the hearing cannot proceed without the absent party, the NBOR may adjourn the hearing and reschedule it for such time as the absent party can be present.

The hearing shall be opened by the recording of the place, time, and date of the hearing, and the presence of the NBOR panel members, parties, counsel, if any, and any other witnesses or observers.

Each party may then present an opening statement setting forth generally the party's view of the issues in dispute, the relief sought, and what they hope to prove by the presentation of evidence.

Petitioner may then present their claims, evidence, and witnesses, who shall be subject to cross-examination by the other party. Respondent may then present their claims, evidence, and witnesses, who shall also be subject to cross-examination by the other party.

Petitioner(s) may then be allowed an opportunity to rebut any testimony or evidence presented by the Respondent(s) after the presentation of Respondent(s).

For matters in which the Petitioner is seeking a lifetime ban, each party should receive 90 minutes to present its evidence. For matters in which the Petitioner is seeking a suspension for a period of years, each party should receive 60 minutes to present its evidence. In an uncontested matter (where a Respondent chooses not to participate), the Petitioner should receive 30 minutes to present a condensed version of its case. Additional time may be provided at the discretion of the hearing panel chair.

The NBOR panel may question any person at any time. The NBOR panel has the discretion to vary these procedures but shall afford all parties a full and equal opportunity to present any material or relevant evidence.

X. Decision

A decision may be rendered by the NBOR panel at the time of the hearing and reduced to writing within five days. The written decision shall be delivered to the parties within seven days after the hearing. Otherwise, the NBOR

panel shall reach a decision as soon as administratively practicable (but not more than twenty-one days after the conclusion of the hearing) and shall deliver the written decision within seven days thereafter.

The written decision shall set forth the right of appeal under this policy to the Board of Directors.

XI. Stay

The NBOR shall have the authority to stay the enforcement of its decision during the time allowed for an appeal, with the decision going into effect automatically if no appeal is perfected during the allowable period.

XII. Delivery

The delivery of all Notices of Hearing to Respondent(s) and all final Decisions to the non-prevailing party(ies) shall be overnight express delivery. Delivery of all other pleadings, orders, and communications may be by electronic mail or other means, as directed by the NBOR Chair.

XIII. Appeal

Any real party in interest, including any officer of USA Swimming or the CEO, may appeal any decision of the NBOR as follows: matters heard by the NBOR pursuant to its original jurisdiction, heard *de novo*, or heard pursuant to its discretionary jurisdiction, may be appealed to the Board of Directors within thirty days of the date of the issuing of its written decision. Decisions of the Ethics Committee, under USA Swimming's Statement of Ethics and Conflict of Interest Policy, may be appealed to the Board of Directors within thirty days of the date of the issue of a written decision.

The Petition on appeal is to be served upon the CEO, as well as the other party(ies) to the NBOR proceeding, and shall be accompanied by a \$250 filing fee payable to USA Swimming. The Petition shall set forth the grounds for appeal, including both factual and legal allegations of error in any earlier proceeding.

Unless the Board of Directors by majority vote decides otherwise, the review by the Board of Directors shall be on the basis of the record and written briefs and shall not be a *de novo* hearing. The Secretary & General Counsel may establish a hearing panel consisting of at least five members (all of whom must be members of the Board of Directors and at least one-third of whom must be 10-Year Athlete representatives) to hear any appeal, including appeals heard as *de novo* hearings. The decision of the hearing panel shall be final with the same force and effect as if the full Board of Directors heard the matter.

The Board of Directors may assess fees and costs against the losing party.

For matters involving the opportunity of any amateur athlete, coach, trainer, manager, administrator, or official to participate in amateur athletic competition, upon demand of USA Swimming or any aggrieved amateur athlete, coach, trainer, manager, administrator, or official, the matter may be submitted to binding arbitration with an arbitral organization designated by the USOPC, after an appeal is heard by the Board of Directors and the Board of Directors renders its decision.

XIV. Confidentiality

Hearings conducted before the NBOR or the Board of Directors regarding alleged Code of Conduct violations shall be closed to the public.

All investigations conducted by the CEO regarding alleged Code of Conduct violations and all proceedings before the NBOR and the Board of Directors regarding alleged Code of Conduct violations shall be and remain confidential until the NBOR, or Board of Directors if an appeal is filed, has rendered its final decision, except:

- a. Information that is necessary to disclose in the course of an investigation to witnesses and other appropriate parties;
- b. Information disclosed pursuant to a subpoena or court order;
- c. Information disclosed to complaining parties or victims;
- d. Information disclosed by USA Swimming in response to disclosures by other parties or witnesses in the proceeding; and
- e. Information disclosed to law enforcement.

For the purposes of this section, a decision shall be considered final when either: (1) the NBOR has rendered its final decision and the 30-day appeal period has run without an appeal being filed; or (2) a party has appealed the decision of the NBOR to the Board of Directors and the Board of Directors has rendered its final decision on such appeal.

USA Swimming shall also disclose information, including, but not limited to, the initiation of an NBOR proceeding and its outcome, to a member club, LSC or Zone where an employee or volunteer of such club, LSC or Zone has been alleged in a complaint to have violated the Code of Conduct.

A redacted summary of each final decision of the NBOR and Board of Directors that includes a finding of a violation of the Code of Conduct may be published at the discretion of USA Swimming.

XV. Full Faith and Credit

See Article 401 of the USA Swimming Rules & Regulations.

XVI. NBOR Special Panel Procedures

USA Swimming has instituted background screening for coaches, non-athlete members, and certain athlete members, pursuant to USA Swimming's Background Check Policy. The background screening process is designed to flag criminal background information that constitutes a violation of USA Swimming's Code of Conduct, or otherwise fails to meet the automatic qualification criteria of USA Swimming's Safe Sport Program.

USA Swimming membership is a privilege. As is set forth in Article 304.1 of the USA Swimming Rules & Regulations, the privilege of membership may be withdrawn or denied by USA Swimming at any time where USA Swimming determines that a member or prospective member's conduct is inconsistent with the mission of the organization or the best interest of the sport and those who participate in it.

The USA Swimming background check report will return a "Review – Eligible for Dispute," "Review – Eligible for Appeal" or "Pass" score. A "Review – Eligible for Dispute" score is an automatic disqualifier for membership and can only be appealed on the grounds that the negative information in the subject's report is incorrect. A "Review – Eligible for Appeal" score indicates that the report includes public record information that, if correct, may not meet membership criteria. However, such a score is not an automatic ban to membership. Instead, the applicant is required to go through the NBOR special background check panel ("NBOR Special Panel") hearing process and an NBOR Special Panel will determine if membership is appropriate and if so under what conditions.

a. Pre-Adverse Action Letter

An individual whose background screen report returns a score of "Review – Eligible for Appeal" will receive a pre-adverse action letter that provides two options:

Option #1: The individual can challenge the accuracy of the information.

Option #2: The individual can acknowledge the accuracy of the report and appeal the negative membership decision. In order to request an appeal, the individual should contact USA Swimming by sending an email to backgroundcheck@usaswimming.org. The request should include the applicant's full name, date of birth, and the Request ID in the applicant information section of the background check report.

Individuals have 15 business days to respond to the pre-adverse action letter. If the individual fails to respond to the letter within 15 business days, USA Swimming will assume that there is nothing in the background check that the individual disputes and, as a result, may take any necessary actions regarding the individual's membership status or lack thereof.

In all cases, USA Swimming reserves the right to bring a NBOR hearing on the basis of background check report information, even if an applicant withdraws from the membership process.

b. Appeal Hearings – Scheduling

USA Swimming will schedule a background check appeal hearing before the NBOR Special Panel as soon as is

practical.

c. Appeal Hearings – Hearing Panel Composition

Each NBOR Special Panel shall consist of three members with a sufficient number of eligible athlete representatives to satisfy the requirement that such athletes constitute one-third of the NBOR Special Panel, to hear and decide the case. Any time the content of a matter before the NBOR involves elite athletes, the NBOR Special Panel must be comprised of 10-Year Athlete representatives. Each NBOR Special Panel will have a Chair who shall be the NBOR Chair or a Vice Chair.

When empaneling a NBOR Special Panel, the NBOR Chair will distribute a conflict of interest form to each potential panel member and the General Counsel will review the conflict of interest disclosure forms prior to empaneling members for a hearing. An alleged failure to disclose a conflict of interest will be submitted to the Ethics Committee for review under the USA Swimming Statement of Ethics and Conflict of Interest Policy.

d. Appeal Hearings – Case Disposition Information

Once a background check appeal hearing has been scheduled, the individual must provide the USA Swimming Background Check Coordinator (the “Background Check Coordinator”) with all available documentation regarding the criminal matter’s final disposition, including all documents related to any sentence, fine or conditions of probation imposed by the court. The hearing may be canceled if the individual does not provide all such documentation to the Background Check Coordinator by the stated deadline in the initial request by the Background Check Coordinator. However, if an individual fails to provide documentation by the deadline stated by the Background Check Coordinator, such that the hearing is canceled, USA Swimming may go forward with a second scheduled hearing without the documentation and ask the NBOR Special Panel to consider the lack of documentation in its finding.

e. Appeal Hearings – Notice of Hearing

The Background Check Coordinator shall set a hearing date, which shall be not more than sixty days from the date the individual requests an appeal hearing. The USA Swimming Background Check Coordinator shall prepare and distribute a Notice of Hearing, which must include the following:

- i. The name of the Respondent(s).
- ii. A statement of charge, which shall be set forth in sufficient detail to give the Respondent(s) reasonable notice of the charge(s) to be addressed.
- iii. The date, time, and conference call access information for the hearing.
- iv. The names of the members of the NBOR Special Panel.
- v. Any other general information, including the right to be represented by counsel, to have witnesses testify, and to submit any and all evidence which is relevant to the issues.

The Background Check Coordinator shall deliver the Notice of Hearing, together with Hearing Packet to the NBOR Special Panel, the individual, and USA Swimming’s designee. The Hearing Packet will contain, at a minimum, a copy of the individual’s member record, a copy of the individual’s background screen report, and a copy of available documentation regarding the criminal matter’s final disposition, including all documents related to any sentence, fine, or conditions of probation imposed by the court, along with any additional information submitted by the individual.

f. Appeal Hearing

The NBOR Special Panel shall cause a recording or transcription to be made of the proceedings.

If the individual provides advanced written notice that they are unavailable to attend the hearing at the scheduled time, the Background Check Coordinator shall reschedule the hearing to such date and time that all parties are available to attend. However, a NBOR Special Panel hearing may proceed without the individual if the individual attempts to cancel a second scheduled hearing that they previously agreed to attend or if they fail to be available at the appointed time without advance notice. The hearing will not proceed in the absence of USA Swimming.

The hearing may proceed in the absence of a hearing panel member only in the event the individual agrees to do so. The recording from the hearing will be provided to the absent panel members for review. If the individual does not agree to do so, or if either the individual or USA Swimming is not present, the Chair of the NBOR Special Panel will adjourn the hearing and reschedule it for such time as the absent party can be present.

The hearing shall be opened by the recording of the time and date of the hearing, and the presence of the NBOR Special Panel members, parties, counsel, if any, and any other witnesses or observers. USA Swimming may then present an opening statement setting forth generally USA Swimming's view of the charges to be addressed.

The NBOR Special Panel Chair will begin by ensuring all participants are aware the hearing is being recorded, swearing in the membership applicant, and questioning the individual. Following completion of the Chair's questioning, the other NBOR Special Panel members will be afforded the opportunity to question the individual. USA Swimming will also be afforded the opportunity to question the individual. Following the completion of questioning, the individual will be allowed to present its witnesses and make any other pertinent statements.

USA Swimming will close by providing its recommendation to the NBOR Special Panel. At that time, USA Swimming the individual, along with the individual's counsel and any witnesses, will be dismissed so that the panel may deliberate.

g. Appeal Hearing – Decision

The NBOR Special Panel Chair will draft a written decision. The written decision will generally be rendered within seven business days of the hearing and will be distributed to all parties.

XVIII. Anti-Retaliation Statement

USA Swimming strictly prohibits any retaliation, as defined in the Whistleblower and Anti-Retaliation Policy. Reports of Prohibited Conduct, as defined in the Whistleblower and Anti-Retaliation Policy, should be made to the USA Swimming Ethics Committee, at the following email address: ethicscommittee@usaswimming.org.

XIX. Banned for Life Policy

Membership is a privilege, not a right, and members who demonstrate that they are not able to interact with children appropriately sacrifice that privilege. USA Swimming cannot be put in a position where it is required to develop, coordinate, monitor, or evaluate any type of “rehabilitation” program for members who have demonstrated that they are not able to interact with minors appropriately. NBOR panels that consider putting “rehabilitative” requirements on a member are putting an unreasonable strain on USA Swimming’s time and resources, and present potential liability issues for USA Swimming should members who have been sanctioned with any kind of “rehabilitative” requirement by a NBOR panel re-offend once they return to membership. As a result, such “rehabilitative” requirements or conditions must be avoided by NBOR panels.

The most severe penalty USA Swimming can assign is to permanently expel a member and add their name to the public list of individuals permanently suspended or ineligible. USA Swimming recognizes that sanctions imposed on members or former members cannot exceed restrictions on privileges tied to membership. For instance, USA Swimming cannot prohibit an expelled member from coaching for a non-member organization, giving private lessons, or running an unaffiliated swim camp, etc.

An individual cannot be banned for life in a specific membership category for life; a ban for life must be across all membership categories.

A ban for life is a permanent expulsion from membership. Individuals who have been banned for life and have exhausted or waived appeal opportunities do not have any recourse to subsequently request that their name be removed from the list, or request to be re-admitted for membership.

IV. Financial Policies

30.0 Financial Policies: Controls and Procedures

Date of adoption / Last revision: July 2025

USA Swimming is dedicated to ensuring that all financial operations are conducted under the highest standards of integrity and ethics and in compliance with strict internal controls to safeguard the organization's assets and provide a strong financial foundation. USA Swimming operates on a calendar year, and all financial records are maintained on an accrual basis. Please contact USA Swimming Finance Business Unit for the comprehensive "Financial Policies and Procedures" document which further outlines the below topics and areas.

FINANCIAL REPORTS

External Reports:

The Chief Financial Officer shall prepare unaudited financial statements, quarterly and annually, for the Board of Directors. Financial statements are to be prepared in compliance with generally accepted accounting principles on the accrual basis and contain budget to actual amounts and variances. Reports will be provided for and discussed at the Board meetings.

Annual Audit:

The Audit Committee will engage an independent CPA annually to conduct an audit and audited financial statements will be presented to the Board of Directors. The annual audited financial statements may either be presented for acceptance to the Board of Directors at its second quarter meeting or via a Board Action Without a Meeting (if necessary to fulfill USOPC reporting requirements given the current cadence of the USA Swimming Board meetings). After acceptance, the audited financial statements are posted on the website.

BUDGET PROCESS AND APPROVAL

Budget Preparation:

All expenditures made in the name of the corporation are subject to and governed by the annual operating budget approved by the Board of Directors. An annual budget for capital expenditure is also included in the operating budget.

The initial part of the budget process begins with the staff. According to the following timetable, the Chief Financial Officer (CFO) and Finance Business Unit will work collaboratively to prepare, analyze, and review revenues and expenditures with the applicable divisions, which are then reviewed with the Chief Executive Officer (CEO). The Business Unit Leaders will work with the committee chairs, vice chairs, and department heads to determine the financial needs for existing and ongoing programs and committees. They will also prepare proposals for any new programs the committees or departments deem appropriate for the coming year.

Please reference Performance Monitoring Report 3.6 – Budget for additional management parameters and Board governance policies pertaining to financial planning.

The Role of the Vice-Chair Fiscal Oversight:

Regarding the budget process, the Vice-Chair Fiscal Oversight should be a functional liaison between the staff and the Board. The Vice-Chair Fiscal Oversight's responsibility is to work with the CEO and the CFO to assure that the product that is delivered to the Board of Directors is in proper form and prepared in accordance with the budget policy and USA Swimming's strategic quadrennial Game Plan. It is not the Vice-Chair Fiscal Oversight's function to determine appropriateness of any specific budget items. It will, however, be appropriate for the Vice-Chair Fiscal Oversight to participate fully in the review process as a member of the Board.

Budget Amendments and Review:

The budget should be approved as a living document, one with built-in flexibility. The CEO should be charged to live within the budget. This means that he/she must be ever vigilant as to overrunning any specific budget category. He/she should be looking at the whole of the divisional budgets to determine that the intent of the Board of Directors is being carried out by the expenditure of funds within the division. It is, ultimately, the CEO's responsibility to review and approve all changes in the way budgeted funds are to be expended. Minor changes to the budget programs already approved should be handled administratively by the CEO. The CEO is responsible to the Board to bring the overall expenditures in at year-end within budget. For new programs adopted during the year, and previously approved programs that have been greatly expanded, the Board will consider budget amendments to adequately fund the programs. Annual deficit spending is at the sole determination of the Board.

To determine that funds are being spent in conformity with the budget, a quarterly budget to actual expenditures report will be provided to the Vice-Chair Fiscal Oversight, and members of the Board by the CFO. Forecasts for the current quadrennium will be prepared and updated quarterly to assist with financial planning and budget preparation.

Budget Timetable:

April - November: Budget preparation, collaboration, and analysis begins and continues to be refined and finalized for the applicable year(s). The CFO continuously reviews and analyzes with CEO, Business Unit leaders, and Vice-Chair Fiscal Oversight.

November/December BOD Meeting: Proposed Budget distributed to Board of Directors ahead of the Board meeting. The Board of Directors meets to review, amend, and approve the Proposed Budget.

OPERATING RESERVES

Philosophy:

The establishment and maintenance of a funded Board-Designated Operating Reserve is a high priority. This will enable USA Swimming to support strategic business practices and to:

- Manage cash flow interruptions.
- Minimize the need for working capital borrowing.
- Meet commitments, obligations, or other contingencies.
- Generate investment income.

Policy:

The purpose of this policy is to establish and maintain a funded Board-Designated Operating Reserve, unencumbered and uncommitted, at a level relative to the annual program funding and the costs of operating and maintaining the organization.

The Operating Reserve is intended to serve a dynamic role and is available to be utilized as needed rather than being static, devoted only to generating interest income.

Definitions:

Board-Designated Operating Reserve – Amounts reported in the Unrestricted Net Assets section of the balance sheet and identified as Board-Designated Operating Reserve.

Costs of Operating and Maintaining the Organization – USA Swimming's net expenses for Program Services and Administration as reflected by the approved annual budget.

Funded Board-Designated Operating Reserve – A fund consisting of liquid assets and investments. Liquid assets are those that may be converted to cash quickly and easily. It is not required that the Board-Designated Operating Reserve be physically segregated in a separate bank or investment account although USA Swimming may decide to do so.

Strategies and Procedures:

Board-Designated Operating Reserve shall be accounted for separate and apart from Undesignated Operating Funds.

The Investment Committee will have the responsibility of developing and recommending policies and guidelines for the investment of the Operating Reserve assets and the Board of Directors will approve such policies and guidelines.

The Operating Reserve goal will be to achieve and maintain at least six months of Program Funding and Operating Costs as defined in Section III.

Sources:

Assets for the **Board-Designated Operating Reserve** accounts will come from the retained earnings of the organization.

Uses:

- Internal line of credit for use to financially operate the organization.
- Funds to meet unfunded and unexpected organization needs.
- Funds for emergency and emerging needs of subsidiaries.
- Funds to make up a deficiency in budgeted revenue, either in results or collection experience.

Governance:

Depletion of the Operating Reserve will be evidenced by a negative balance in Undesignated Operating Funds. The procedure for approving use of the Operating Reserve Funds will be as follows:

- By approval of the Board of Directors to fund unusual expenditures out of reserves.
- By extraordinary expenses or loss of revenue and (or) investment losses. In this case, the following procedure will be followed:
 - The CFO will inform the Board Chair, the Vice-Chair Fiscal Oversight, and the CEO.
 - The Vice-Chair Fiscal Oversight will inform the Board of Directors at its next scheduled meeting.
- If the Operating Reserve is and has been less than 75% of the targeted reserve level for two consecutive years, the Board of Directors, in the absence of any extraordinary circumstances, will adopt an operational budget that includes a projected surplus sufficient to rebuild the Operating Reserve Fund to its targeted reserve level over the following two years.

Maintenance:

The status of the funded **Board-Designated Operating Reserve** will be calculated (at least) at the end of each fiscal year based upon audited financial results.

Operating Reserve Ratio Calculation

The calculation formula will be based upon the amounts defined in Section III as follows:

Unrestricted, Board-Designated Operating Reserve as of 12/31 = [Budgeted Annual Operating Budget] x 6/12

Example: \$19,118,295 = \$38,236,590 x 6/12

The adequacy of the Board-Designated Operating Reserve will be determined as follows:

Example:

Total Net Assets	\$31,175,406
Less: Board Designated USSIC Net Assets	<u>(\$8,956,083)</u>
Total Undesignated Net Assets	\$22,219,323
Less: Net Fixed Assets	(\$4,547,890)

Less: Prepaid Rent	(\$4,626,185)
Add: Deferred Revenue	<u>\$9,354,041</u>
Adjusted Undesignated Net Assets	\$22,399,289

Board-Designated Operating Res. (1/2 Budget)	<u>\$19,118,295</u> (above)
Excess Operating Reserve	\$3,280,994 (calc)

The Operating Reserve Ratio Calculation will be presented to the Vice-Chair Fiscal Oversight following approval of the financial audit results by the Audit Committee. The Vice-Chair Fiscal Oversight will consider the adequacy of the Operating Reserve amount and will recommend any changes as deemed necessary.

Policy Review:

This policy will be reviewed every four years by the Vice-Chair Fiscal Oversight or sooner if conditions warrant. Any changes thereto will be approved by the Board of Directors.

PURCHASING

POLICY: USA Swimming will employ sound business practices when purchasing goods and services to reduce costs and avoid conflicts of interest. Procurement of goods and services should be made by appropriate personnel and according to company guidelines. Please contact USA Swimming Finance Division for the “Financial Policies and Procedures” document which includes a Purchasing section.

COMMITTEE ACCOUNTING PROCEDURES

There shall be no separate checking accounts for projects carried out under the direction of any committee without the express authorization of the Board of Directors.

Purpose

This Policy outlines expenses that are reimbursable on behalf of those traveling for USA Swimming and USA Swimming Foundation (“USA Swimming”) business.

Policy Statement

The Policy’s objective is to provide for the safety and well-being of staff, volunteers, contractors, and athletes while traveling for the organization, while ensuring reasonable cost management.

While this Policy contains suggested expense limits, all travelers must use sound reasoning and professional judgement when incurring expenses. As a non-profit organization, we have a fiduciary responsibility to spend conservatively and to avoid the appearance of extravagance. Excessive spending, upgrades, and luxurious or extravagant purchases (as determined by the CFO) will not be reimbursed.

Business expenses must be appropriate, reasonable, customary, and necessary.

USA Swimming recognizes that in some instances, unique business-travel expenses not addressed in this Policy might be incurred. The CFO will review these expenses on a case-by-case basis and approve (in advance, when possible) these expenses. All comments or requests for interpretation of this policy should be directed to the CFO or Director of Accounting.

General Information

1. *Applicability*

This Policy applies to all employees, volunteers, contractors, coaches, athletes, and any others requested by management (collectively, “Travelers”) to incur expenses on behalf of USA Swimming. Those tasked with approving expenses are responsible for and held accountable to reviewing and approving expenses in accordance with this Policy.

2. *Reporting*

Itemized receipts are required for all reimbursed expenses. Credit card receipt proof of payment will NOT be accepted as the sole form of receipt. All reimbursed expenses require a documented business purpose. Expense reports must be submitted within 10 days (staff) and 60 days (non-staff). Expense reports submitted later than 60 days may result in non-reimbursement.

3. *Exceptions to Policy*

Requests for exceptions to this Policy require approval from the applicable Strategy Team member. Approval should be submitted before booking with a travel agent or included in Concur. Strategy Team members may approve Policy exceptions to reasonably accommodate all Travelers with disabilities.

Air Travel

1. *Use of Travel Agent/Concur Online Booking Tool*

All air travel must be booked utilizing USA Swimming’s online booking tool (Concur) or through a USA Swimming designated travel agency (“Travel Agency”). To maximize cost savings, every effort should be made to book travel at least 21 days in advance.

2. Airline Carriers

USA Swimming participates in the United Airlines “United Pass Plus” program, allowing for discounted rates. However, Travelers may book with any carrier if the fare is reasonable.

3. Class of Service

Travelers must use the lowest logical fare (defined as lowest coach class airfare at time of booking, unless approved in advance by your strategy team member) for all travel. Travelers may only book first class/business class at their own expense. Any other fare class must be preapproved by a Strategy Team member and CFO.

4. Frequent Flyer/Traveler Loyalty Programs and Preferred Seating

Benefits from frequent flyer and other traveler loyalty programs may be retained and used by Travelers.

5. Upgrades

Costs associated with domestic (including Hawaii & Alaska) upgrades are the responsibility of the Traveler. For information associated with international flights, see Appendix II.

6. Personal Flights

When personal travel is included in a trip, Travelers must pay the additional cost of the personal travel directly to Finance before the ticket is issued. USA Swimming will not reimburse fares that result in savings to USA Swimming. The proposed itinerary, including business and personal travel, is compared to the lowest available coach class round-trip fare (determined at booking) for determining personal cost. Companion travel should never dictate business travel and business travel should be booked first.

7. Unused Tickets/Flight Credits

Travelers must ensure that they utilize outstanding unused tickets or flight credits when booking new flights. To exchange an unused ticket or to utilize a credit, the Traveler must contact the Travel Agency directly. These transactions cannot be completed through the online booking tool.

8. Travel Changes and Cancellation

If a Traveler must cancel or change a flight, The traveler must cancel the reservation prior to travel by contacting the Travel Agency, Concur, or the airline. The Traveler may be responsible for cancellation or change fees if incurred for personal reasons. Travels should avoid excessive change fees.

9. Reimbursements for Airfare Purchased Outside USA Swimming

In the event a circumstance occurs where airfare must be purchased outside of Concur or USA Swimming’s travel agency, reimbursements will only be approved up to the cost of airfare that USA Swimming could have provided for the same travel (based on 21-day advance booking).

Ground Transportation

Note: The most cost-effective, safe, and efficient ground transportation must be used.

1. Rental Cars

USA Swimming’s preferred rental car vendor is Enterprise/National, which Travelers should use for car rentals, booking with USA Swimming account number XZ12940. In the event the preferred rental car vendor is unavailable, the most reasonable, cheapest alternative should be chosen. When traveling with a group, Travelers must share rental cars to minimize costs.

When renting a car with USA Swimming’s account number with Enterprise/National for travel in the US and Canada, the rental rates include Enterprise’s insurance, so Travelers should not purchase rental insurance. When renting a car for international travel, Travelers should purchase the rental agency’s insurance (except as discussed above in Canada).

Please see Appendix I for additional information on rental insurance in other scenarios. Travelers should refuel rental vehicles before returning to the rental agency to avoid high fuel surcharges.

2. Airport Parking

Travelers must use economy level airport parking. USA Swimming will not reimburse garage parking at Denver International Airport unless preapproved by the applicable Strategy Team member.

3. Business Use of Personal Vehicle

Travelers must have a valid driver's license and insurance in compliance with all state laws. Mileage is reimbursed at the rate established by the IRS. This mileage allowance is in lieu of actual expenses for gasoline, oil, repairs, and depreciation.

Utilization of a personal vehicle in lieu of flights will be reimbursed at the mileage rate established by the IRS and may not exceed the costs associated with a roundtrip airfare (determined by cost booked at least 21 days prior to departure).

USA Swimming is not responsible for any theft or damage to vehicles or other personal property when a personal car is used for business purposes.

4. Other

Use of ride share services, airport shuttles, and taxis are allowed. Tolls, ferries, and parking expenses incurred are reimbursable. Parking tickets, moving violations, fines, penalties, towing charges, accidents and theft losses are not reimbursable.

3. Receipt Requirement

Travelers must itemize all hotel costs, such as room cost, taxes, internet service, parking, meals, etc.

4. Cancellations

Travelers must review and adhere to hotel cancellation policies at the time of booking. No-shows or late cancellation charges are the Traveler's responsibility unless caused by circumstances beyond their control.

Other Travel Considerations

1. Per Diem

Staff – USA Swimming will provide employees a per diem allowance for meals. The daily per diem must be prorated for partial days and reduced if meals are provided. Staff should take advantage of on-site hospitality at events and breakfasts/meals at hotels. Where groups of staff dine together, the most senior staff member in attendance must pay for the meal and per diem should be excluded for those meals. For domestic travel, USA Swimming follows IRS regulations for per diem utilizing the high-Low method for cities within the contiguous United States. The IRS updates these rates annually. Rates are found in the organization's weekly newsletter, shared drive, and/or Finance department. For Hawaii, Alaska, and international cities, USA Swimming provides 70% of the published IRS rates for those locations. International rates begin upon arrival in the foreign country and end upon departure from the foreign country. "High" domestic rates are used for all cities in Canada and Mexico.

When it is necessary for a staff member to travel for the day (without an overnight stay), the staff member may not submit for per diem related to incidentals or breakfast but may submit for lunch and dinner per diem if required to work after 7:00 p.m. local time. Incidentals are included in daily per diem and are defined by IRS as fees and tips to porters, baggage carriers, and hotel staff, and fees for carts. Reimbursement for these items is not allowed.

Volunteers, Contractors, Athletes – Flat rate per diem may be provided at a flat dollar amount of \$50 per day for actual meeting/event dates (not to include travel days). Per diem is not provided for travel days and no deductions will be calculated for meals provided by USA Swimming. Approval for non-staff per diem must be made in advance by Director level or above

2. Business Meeting Meals

Business meeting meals and entertainment are allowed when meeting with business associates and conducting active business for a specific business purpose that clearly benefits USA Swimming. Documentation of business purpose and attendees are required.

3. Passport, Visas, Expedited Security Enrollments, and Immunizations – Staff Only

Staff will be reimbursed for all costs associated with international travel such as passport fees, passport photos, visa applications, and immunizations (when applicable). TSA Pre-check or Global Entry enrollment fees are reimbursable for staff who take five or more business trips per year.

- Airline baggage fees
- Business-related internet charges
- Changes to existing travel itineraries with Strategy Team member approval

High school and summer league coaching experience does not qualify as relevant experience for this section.
 - At its sole discretion, USA Swimming may require additional education based on the coach's experience. For example, if the coach has been a head coach for four or more years at a YMCA, USA Swimming may still require them to take courses within USA Swimming University.

34.0 Officials Certification Standards for Utilization by LSC Officials

Date of adoption / Last revision: April 17, 2026

The following standards have been established to provide a clear and uniform path for members who wish to become officials at the local level and enable LSCs to develop and conduct programs to recruit, certify, educate, train, and mentor USA Swimming officials and to provide competent and consistent officiating for our athletes. Furthermore, LSCs are required to implement these standards beginning February 1, 2024. Additionally, all LSCs are required to recognize the certified status of visiting and transferring officials from other LSCs.

The standards are being implemented expressly to facilitate the ability of officials to officiate in LSCs other than the one they received their certification. Additionally, these standards are intended to:

- Ensure a clear and consistent knowledge of the rules.
- Provide sufficient time in training to assure familiarity with all levels of competition.
- Provide opportunity to work on the deck and advance through the certification process.
- Allow automatic acceptance of officials' certifications between all LSCs.
- Ensure professionalism and teamwork while in attendance at a swim event both on and off the deck.

Any LSC official that holds an LSC certification as of 2/1/2024 will be grandfathered into that certification without additional training.

RATIONALE

1. To establish a consistent appeal process for a meet host whose request for sanction or approval is denied by an LSC.
2. To allow for review of denials to make certain such denials are not limiting competitive opportunities for athletes.

AUTHORITY OF THE LSC

1. Each LSC has been authorized by USA Swimming to issue the sanction or approval for all swimming competitions and benefits, exhibitions, clinics, and entertainment involving competitive swimming within its geographical boundaries as described in Article 202 of the USA Swimming Rules and Regulations.
2. Additional requirements/conditions for sanction or approval may be established by a vote of the LSC House of Delegates in accordance with LSC bylaws.
3. The LSC has the right and authority to establish and collect relevant entry fees.
4. Prospective hosts must adhere to the LSC published guidelines, deadlines, and procedures.
5. Prospective hosts must follow USA Swimming rules and guidelines.

LSC REQUIREMENTS

As part of the sanction and approval process delegated by USA Swimming to LSCs, each LSC must:

1. Establish submission deadlines for sanction or approval applications and publish such deadlines along with relevant instructions and forms.
2. Establish and publish policies regarding applications submitted as well as relevant fees and penalties.
3. Establish and publish policies regarding applications submitted after the published deadlines citing relevant fees and penalties.
4. Provide written notification within ten (10) days to the applicant citing the reason for the denial and of the appeals process.
5. Update LSC policies and procedures as needed to reflect deadlines and instructions.

If an individual or entity has reason to believe that a meet host and/or LSC has violated USA Swimming's conditions of sanction (i.e. Rules 202.5.1-10 in the USA Swimming Rules and Regulations), those concerns should be reported to USA Swimming's Safe Sport Division at safesport@usaswimming.org during, or immediately following the meet.

AUTHORITY OF THE ZONE SANCTION APPEAL PANEL (ZSAP)

1. To review applicable LSC rules and policies as well as the prospective host/petitioner's actions to determine whether applicable rules and policies were followed and fairly applied.
2. The ZSAP does not have the authority to overrule LSC regulations and policies.
3. The ZSAP does not have the authority to establish entry fees.
4. The ZSAP is authorized to require an LSC to issue a sanction or approval except in those instances where, in the ZSAP's judgment, the sanction or approval was denied because the application was in conflict with a policy adopted by the LSC House of Delegates or because the application was in conflict with USA Swimming rules or requirements.

STANDARD TIMELINE AND PROCEDURES FOR AN APPEAL

To ensure that the Zones conduct the Zone Sanction Appeal process consistently, the following standard timeline and procedures for an appeal must be followed.

1. Each Zone shall designate a group of coaches, referees, and athletes available to serve on an Appeal Panel.
2. Each Zone shall also designate and publish the Zone Director to whom petitions are to be submitted.
3. A petitioner must file an appeal in writing with the designated Zone Director within **5 days of denial** of sanction by the applicable LSC.
4. Within 24 hours, the designated Zone Director shall provide a written response to the petitioner acknowledging receipt of the appeal.
 - If the petitioner does not receive acknowledgement within 24 hours from the designated Zone Director, the petitioner shall immediately contact the other Zone Director in writing.
 - The other Zone Director shall attempt to contact the designated Zone Director within 24 and, if unable to do so, the other Zone Director shall convene the ZSAP.

Note 1: The Zone Directors shall make every effort to adhere to a 24-hour timeline in convening the ZSAP. Failure to do so does not void the appeal or the decision.

Note 2: Even if initial contacts are made via phone, appeal requests and confirmation must be reduced to writing.

5. When an appeal is filed, the Zone Director shall notify the LSC and appoint a panel made up of a coach, referee, and athlete, each from a different LSC and none from the petitioner's LSC.
6. Documentation to be presented to the ZSAP by petition includes, at a minimum:
 - Meet information
 - Process followed by petitioner
 - Reasons for appeal
7. Documentation to be presented to the ZSAP by LSC includes, at a minimum:
 - Reason for denial
 - Pertinent LSC rules, timeline, process

8. The Zone Director convening the ZSAP shall provide the ZSAP with all pertinent written documentation for review and consideration. The ZSAP shall decide the matter within five (5) days of convening the ZSAP.
9. The ZSAP shall notify the Zone Director convening the ZSAP of its decision in writing.
10. The Zone Director convening the ZSAP shall notify the petitioner and the applicable LSC of the ZSAP decision.
11. The ZSAP decision is final and there are no further appellate opportunities.
12. The ZSAP Chair will complete a standard one-page report to document the decision.

ZONE SANCTION APPEAL PANEL (ZSAP) ELIGIBILITY SELECTION

1. Each Zone shall designate a group of individuals eligible to sit on a Zone Sanction Appeal Panel (ZSAP).
2. Designees shall be named for a one-year term by October 1 of each year and shall be eligible for reappointment.
3. When a petition is received, the Zone Director shall appoint a panel made up of a coach, a referee, and an athlete, each from a different LSC and none from the petitioner's LSC.
4. The ZSAP shall select its panel chair and all three members must participate in the appeal.

ZSAP INITIAL QUESTIONNAIRE

In order to facilitate a cohesive, fair, and consistent process, all ZSAP panels should use the following questions at the beginning of each initiated panel.

1. Did the LSC that has denied the sanction clearly communicate its rules and deadlines in a reasonable amount of time?
2. Did the appellant follow the rules and deadlines of the LSC?
3. Did the LSC provide a reasonable and concise explanation as to why the sanction was denied?
4. Did the LSC provide the appellant with the appropriate information concerning the appeal process within a reasonable period of time?
5. Did the LSC and the appellant try to come to an agreement before the appeal was filed?

37.0 Rules and Regulations Regarding Competition

Date of adoption / Last revision: November 23, 2025

The below provisions are additional to the USA Swimming Rules and Regulations and may be amended at any time by the President & CEO. The rules outlined below specifically apply to USA Swimming national events; however, the rules regarding locally sanctioned events can be found in the USA Swimming Rulebook at Article 202. Sanctions to host a meet may be issued to USA Swimming group members or LSCs and their subdivisions. When a meet host appoints a meet director per Rule 102.9, the meet host must ensure that the meet director has reviewed the USA Swimming Corporate Bylaws, Rulebook, Operating Policy Manual, and local version of the Meet 360 guide.

ARTICLE 206

AWARDING USA SWIMMING CHAMPIONSHIPS AND INTERNATIONAL COMPETITIONS

In addition to Article 206.2.2, facilities with movable bulkheads shall be required to demonstrate prior to submitting a bid for a USA Swimming Championship, the ability to meet all measurements and tolerances as specified in 103.3, 103.4 and 103.5. Written confirmation of this demonstration shall accompany the championship meet bid.

In addition to Article 206.5.2, the President & CEO's recommendation shall be presented to the Board of Directors for approval.

In addition to Article 207.6.1, USA Swimming National Championships and U.S. Open qualifying time standards will be determined from performances at the respective winter and summer championship meets for all swimmers and may be based on world rankings so that they will be of comparable quality for all events.

In addition to Article 207.7.2, the time of any swimmer recorded while legally representing a USA Swimming club, secondary school, college, or university within the appropriate time frame may be used in proving an aggregate relay-entry time and that swimmer does not need to be entered in the championship in question. Foreign swimmers, who are representing a foreign team or country, must meet the established National Championships time standards and provide official meet results with the entry form. The above requirements shall be made a part of the official entry form for all USA Swimming championships and other meets at which proof-of-time is required through the SWIMS database.

In addition to Article 207.1.1, posting to the USA Swimming Web Site of the entry forms and meet information will be the responsibility of USA Swimming.

In addition to Article 207.8.2, the meet information shall state that foreign swimmers must comply with all meet entry requirements. The meet director's telephone number and/or email address shall be included in the information book. USA Swimming shall establish a closing date for entries in all USA Swimming championship events which shall be at least one week before the first day of competition. For USA Swimming National Championships, a later fax entry deadline of 11:59 p.m. (local time at the host site) two (2) days prior to the start of the meet may be established and published in the meet information book for qualifying times that are first achieved after the entry deadline and prior to the late entry deadline.

In addition to Article 207.9.4D, times achieved at an altitude of 3,000 feet or above may be adjusted as follows:

Time Adjustment

Event Distance	3000-4250 Feet	4251-6500 Feet	Above 6500 Feet
200	.50 Sec.	1.20 Sec.	1.60 Sec.

400 or 500	2.50 Sec.	5.00 Sec.	7.00 Sec.
800 freestyle relay	2.00 Sec.	4.80 Sec.	6.40 Sec.
800 or 1000	5.00 Sec.	10.00 Sec.	15.00 Sec.
1500 or 1650	11.00 Sec.	23.00 Sec.	32.50 Sec.

Subtract the time indicated above from the actual time achieved at altitude. This is the time to be used on the entry form and seeding will be based on that time. Information relative to the adjustment accompanying the entry form must include name of swimmer, event, date of performance, elevation location, actual time, corrected time, and signature of coach.

A swimmer or relay may use the above adjustments to meet the national qualifying time standard and seeding will be based upon that time.

Only swimmers and relay teams entered using the procedures stated in the meet announcement shall be eligible to compete. Submitted times may be updated up to the entry deadline. No corrections or changes of events entered, or additional entries will be accepted after the entry deadline. Typographical or transcription errors which can be readily verified by entry data or National Times Database data may be corrected if attested to by the swimmer, coach, or the swimmer's representative prior to the scratch deadline.

In addition to Article 207.9.5, any swimmer who qualifies for the 1000 or 1650-yard freestyle or the 800 or 1500-meter freestyle may enter at his/her fastest time or at the time standard, if entered in two or more events on the day of the distance freestyle. In USA Swimming National Championships, swimmers entered in the 800/1000 and 1500/1650 freestyle do not need to enter their best times but may enter themselves at the time performed at the meet distance (SC-SC, LC-LC) at the previous USA Swimming National Championships, provided they have made the short course yard, short course meter, or long course meter standard during the appropriate qualifying period. Swimmers will be seeded at their entered times.

In addition to Article 207.9.6, when approved by USA Swimming, foreign swimmers who are not members of USA Swimming, may enter national championships provided they have met all qualifying requirements including submission of proof of entered times. (See also 207.8.3)

In addition to Article 207.9.8B, relay teams shall indicate on the entry whether they elect to be entered at their provable time or at the lowest priority non-conforming time standard. The time for each relay may be submitted as a composite or an aggregate time. Only times achieved in the same course (i.e., all short course or all long course) may be used for aggregate relay times.

A completed relay entry listing the competing relay swimmers, their first and last names, ages, and order of swimming, shall be returned to the clerk of course for each competing relay. Upon reporting to the starting blocks, immediately prior to the start of the relay heat in which such team is entered, the completed relay entry form shall be handed to the head lane timer. No change will be permitted thereafter and failure to present the head lane timer with written list of relay swimmers shall prevent such team from competing.

A fine of \$100 will be imposed on the organization obtaining deck credentials for each relay-only swimmer who does not compete in a USA Swimming National Championship relay. No penalty shall apply if the Referee is notified prior to the event and accepts proof that failure to compete was due to the relay-only swimmer's illness or injury, or to circumstances beyond the swimmer's control.

38.0 USA Swimming Times Module – Policy and Guidelines

Date of adoption / Last revision: March 23, 2021

1.0 OVERVIEW

In June 2003 USA Swimming launched a browser-based database system that consolidated 30 different types of databases utilized by volunteers and staff to serve its athlete and nonathlete members. With membership data and times data linked for the first time, SWIMS (**Swimming Web-based Interactive Membership System**) is a comprehensive and inclusive database. SWIMS is a composite of membership data and history and a databank of times swum for nearly every athlete member since June 2003. It is expected that LSC SWIMS officers will submit all eligible times from LSC sanctioned, approved, and observed competitions into SWIMS to provide USA Swimming with complete data for meet entry, athlete tracking, and research.

2.0 PURPOSE

- 2.1. The purpose of this manual is to provide general guidance to the swimmers, coaches, and volunteers who will be providing or using the times data in the SWIMS system. The guidelines describing the functions of the Times Module of SWIMS are meant as a handbook for the LSC Times Volunteers who use SWIMS.
- 2.2. Times for USA Swimming members that have been entered into SWIMS are visible on the look up feature on the USA Swimming website.
- 2.3. The primary purpose of the Times module in SWIMS is to provide a database of all official times that conform to the requirements stipulated in the Timing Rules section of the Technical Rules portion of the USA Swimming Rules and Regulations. Open Water times are not included in the SWIMS database.

3.0 RESPONSIBILITIES

- 3.1. Each LSC is responsible for data entry of times within its geographical boundaries. There may be exceptions as agreed upon by specific LSCs.
- 3.2. Times from the following meets will be entered into SWIMS by the host LSC:
 - A. Sanctioned and approved LSC Meets
 - B. YM/YWCA/AAU Championships
 - C. Other swims that have been authorized for observation (NFHS and USMS, IPC)

NOTE: Times from observed swims and approved meets will be entered into SWIMS by the LSC for USA Swimming member athletes with USA Swimming ID numbers or full legal names and birth dates provided in the electronic meet results or separately on paper. NCAA meets are run as approved competitions, managed by the host school without LSC authorization, and results are entered by USA Swimming staff.

- 3.3. The following meets do not fall under the LSC responsibility for data entry:
 - A. USA Swimming Trials, ConocoPhillips National Championships, including time trials, and United States Open Championships
 - B. USA Swimming Short Course (SCY) Championships, including time trials.

- C. USA Swimming Speedo Junior Championships, including time trials.
- D. World Cup, World Championships (short and long course), Olympic Games, World University Games, Pan American Games, Pan Pacifics, Junior Pan Pacifics, including time trials (inclusion of times from these meets will be done for American athletes only). Foreign athletes who wish to use these times to compete in USA Swimming meets should present results to USA Swimming staff (Times) for inclusion in SWIMS.
- E. Pro Series and Futures meets, including time trials, unless the LSC is specifically requested to enter the meet into SWIMS.
- F. Certain International competitions at which a USA Swimming National Team competes.
- G. NCAA meets.
- H. Foreign meets authorized by a FINA member that are attended by USA Swimming registered swimmers (See description of foreign meets in 4.4).

4.0 TYPES OF MEETS INCLUDED

This summary is intended to help clarify the key differences about the various types of swims generating “official” USA Swimming times. More detailed information and definitive regulations are available in USA Swimming Rules and Regulations (Article 202) in which requirement and conditions for sanction, approved competitions, NCAA meets, and observed swims are defined.

4.1. SANCTIONED MEET

- A. All participants must be members of USA Swimming (including meet directors, coaches [all persons acting in any coaching capacity must be coach members], officials, athletes, and participating clubs.
- B. Meet must be conducted under USA Swimming technical and administrative rules.
- C. All official times achieved will be recognized by USA Swimming.

4.2. APPROVED MEET

- A. There are no requirements for USA Swimming athlete membership for meet participation.
- B. Approvals may be issued to non-member clubs/organizations for meets conducted in accordance with USA Swimming technical rules, including those requirements stipulated under the Timing Rules section of the Technical Rules portion of USA swimming Rules and Regulations.
- C. Approvals may be issued to member clubs for closed competition (such as YMCAs) conducted in accordance with USA Swimming technical rules.
- D. Approvals may be issued to member clubs for open competition conducted in accordance with USA Swimming technical rules if that competition has been specifically approved by the USA Swimming staff leader or designee(s). (See Form E in attachments.)

4.3. OBSERVED MEET

- A. There are no requirements for USA Swimming athlete membership for meet participation.
- B. Meet is conducted under technical rules other than USA Swimming (e.g., high school, Masters, IPC).
- C. A request for observation must be made to the LSC at least ten (10) days prior to the meet. Policies and procedures may vary between LSCS.

- D. Times from swim(s) observed and approved by association officials working season culminating championship meets and invitationals are recognized by USA Swimming (except for NCAA meets – see below). Official times of USA Swimming members are eligible for inclusion in the SWIMS database. A USA Swimming official must verify that all swims approved for USA Swimming purposes were in accordance with the following requirements.
 - (1) Minimum of one referee, one starter and two stroke & turn judge association officials working season-culminating championship meets and invitationals.
 - (2) 102.24 (Timing Rules)
 - (3) 103.3 (Racing Course Dimensions); and
 - (4) 103.14 (Starting Platforms)
- E. Times for events achieved at NCAA bona fide competition as defined in the current NCAA Rules and Interpretations shall be regarded as approved times for USA Swimming purposes and are to be submitted within 72 hours after the meet has ended to ncaa@usaswimming.org.
- F. If technical rules of the stroke differ from USA Swimming as defined in Article 101, at least two observers from USA Swimming and/or the YMCA, who shall be certified Stroke & Turn Judges assigned or approved by the LSC, must be present on the deck. If at least two of the four association officials are dually certified, no further observers are required. Where the technical rules are identical, the judgement of the organization officials shall be sufficient.

4.4. FOREIGN MEET

- A. For times from a foreign meet sanctioned by another FINA member to be included in SWIMS, the meet must comply with the minimum standards for an official time as stipulated under the Timing Rules section of the Technical Rules portion of the USA Swimming Rules and Regulations.
- B. Best times may be requested for an athlete who needs the times to qualify for entry into a championship level meet for USA Swimming. Events, times swum, and a link to official meet results must be provided to the Chair of the Times and Recognition Committee for data entry.
- C. This category of foreign meet does not include international competitions at which the USA Swimming National Team is competing. Times submission from such International meets is the responsibility of the USA Swimming staff to submit.
- D. The USA Swimming member must be representing his/her club or swimming unattached for a time to be included in SWIMS. If a USA Swimming member is also a foreign federation athlete, the swimmer may represent his/her foreign club in a foreign meet.
- E. USA Swimming has an “open border” policy with Puerto Rico, Canada, Bermuda, and the U.S. Virgin Islands. Travel documents are not necessary for their athletes or clubs traveling to the United States and are not necessary for USA Swimming’s athletes traveling to these countries. Swimmers who wish to compete in international meets outside of these countries must obtain a Foreign Travel Permit through the LSC Registrar and USA Swimming Membership Services before competing in a foreign meet.

4.5. TIME TRIALS

- A. Time trials conducted at meets other than the competitions defined in 3.3 must conform to the following:
 - (1) Time trials must be sanctioned by the LSC and conducted in accordance with all USA Swimming Technical Rules and abide by the Requirements for Sanction stipulated in the Administrative Regulations of Competition portion of the USA Swimming Rules and Regulations.
 - (2) Time trials must be authorized in accordance with established LSC procedures.
 - (3) If a time trial is conducted in conjunction with a collegiate meet, an approved

meet, a USMS meet, or other meet authorized for USA Swimming observation and it is officiated to the same standard as the authorized meet, times may be entered into SWIMS.

- (4) All time trials meeting the above specifications should be uploaded into SWIMS.
- (5) Electronic results (SDIF, .cl2, XDIF, HY3) of the time trials may be loaded into SWIMS as part of an accompanying swim meet or separately. The preferred method is separate results files. All results must be entered into the proper event description in the meet file.

4.6. ALTITUDE ADJUSTED TIMES

- A. Information on Altitude Adjusted Times may be found in the USA Swimming Policy Manual. Altitude Adjusted Times may be used to enter USA Swimming Sanctioned Meets. They may not be used for records or recognition purposes.
- B. Times achieved at an altitude of 3,000 feet or above may be adjusted as follows:

Time Adjustment

Event Distance	3000-4250 Feet	4251-6500 Feet	Above 6500 Feet
200	.50 Sec.	1.20 Sec.	1.60 Sec.
400 or 500	2.50 Sec.	5.00 Sec.	7.00 Sec.
800 freestyle relay	2.00 Sec.	4.80 Sec.	6.40 Sec.
800 or 1000	5.00 Sec.	10.00 Sec.	15.00 Sec.
1500 or 1650	11.00 Sec.	23.0 Sec.	32.50 Sec.

- (1) Subtract the time indicated above from the actual time achieved at altitude. This is the time to be used on the entry form and seeding will be based on that time. Information relative to the adjustment accompanying the entry form must include name of swimmer, event, date of performance, elevation location, actual time, corrected time, and signature of coach.
- (2) A swimmer or relay may use the above adjustments to meet the national qualifying standard and seeding will be based upon that time.

5.0 SWIMMING RECORDS

World Records and USA Swimming Records (including American and United States Open Records, National Age Group (NAG) Records, Zone Records, and LSC Records) must comply with the requirements stipulated under the Rules for Timing Records section of the Technical Rules portion of the USA Swimming Rules and Regulations. USA Swimming record applications shall be submitted to USA Swimming and shall be approved by the Times and Recognition Committee.

- 5.1. Applications for all USA Swimming records shall be posted on the USA Swimming website.
- 5.2. Applications and all required paperwork for American and United States Open Records must be submitted within 14 days of performance.
 - A. An American Record may be established only by United States citizens eligible to compete under and achieving an official time in accordance with USA Swimming rules. Records may be established in or outside of the United States.
 - B. A United States Open Record may be established only within the geographical territory of the United States by any person eligible to compete under and achieving an official time in accordance with USA Swimming rules.
 - C. Pool measurement as stipulated under the Pool Measurement portion of the American and United States Open Records sub-section of the Technical Rules section of the USA

Swimming Rules and Regulations is required. Record applications will not be accepted unless certification of course length accompanies the application or is already on file with USA Swimming. Certifications last indefinitely unless structural changes are made to the pool. The length of the course shall be measured and certified by a qualified person in accordance with the standards established by USA Swimming.

- D. In a pool where a moveable bulkhead is used, course measurement of the lane in which the record was set must be confirmed at the conclusion of the session during which the time was achieved.
 - E. Times must be registered by automatic equipment and submitted in hundredths of a second.
 - F. If an American Record or United States Open Record is set at the USA Swimming National Championships, Junior National Championships, United States Open Championships, or any USA Swimming Selection Meet, National Event staff and/or the USA Swimming staff leader, or designees will compile and submit all documentation and ensure that all requirements have been met.
 - G. Lead-off legs/initial distances of mixed gender relays shall not count for American or U.S. Open records.
 - H. If a swimmer in a NCAA Bona Fide competition sets a record, the referee shall stipulate that the athlete was not wearing illegal tape on the record application or confirm this with the USA Swimming staff leader or designees.
- 5.3. Applications and all required paperwork for NAG records must be submitted within 30 days of performance.
- A. Only USA Swimming members who are U.S. citizens representing a USA Swimming club or competing unattached are eligible to establish National Age Group records. Times submitted for Age Group Records must comply with all requirements stipulated in the National Age Group Recognition Program detailed in the Administrative Regulations of Competition of the USA Swimming Rules and Regulations.
 - B. The official times for establishing specific records in short course yards or long course meters must be achieved as determined in accordance under the Timing Rules section of the Technical Rules portion of the USA Swimming Rules and Regulations.
 - C. If a NAG record is set at a USA Swimming National Championship, Junior National championship, United States Open, or USA Swimming Selection meet, National Event staff members and/or the USA Swimming staff leader or designees will provide documentation and ensure that all criteria are met. NAG records achieved at Sectional, Arena Pro, or Futures meets do not require application. Times and Recognition Committee will document and award record status.
 - D. Measurement of the pool is not required for a NAG Record. In signing a NAG application form, the meet referee is confirming the validity of the time, the swim, and the course.
 - E. If an NCAA competitor sets a NAG record in a Bona Fide competition, the referee shall stipulate on the application that the swimmer was not wearing illegal tape.
- 5.4. Specific requirements for Zone records and LSC records will be set by the appropriate Zone or LSC.
- 5.5. A record will be recognized in the competition category in which it was earned.

6.0 AGE GROUP RECOGNITION PROGRAM

- 6.1. It is the responsibility of the Times and Recognition Committee to establish an Age Group Recognition Program and the NAG motivational time standards chart. The Time and

Recognition committee may consider and make changes prior to the start of a new awards period in accordance with the USA Swimming Rules and Regulations.

- 6.2. The Age Group Recognition Program will recognize the following for short course yards and long course meters:
 - A. The top ten individual times in a single age group beginning at age 11 through age 18.
 - B. The top ten relay times beginning with age group 11-12 and continuing for the 13- 14, 15-16, 17-18, and 15-18 age groups.
- 6.3. The Age Group Recognition Program will use a 12-month qualifying period beginning on September 1 of the prior year to August 31 of the current year to determine eligibility.
- 6.4. All times must be reported no later than September 7th of the current year for the previous 12-month period (September 1-August 31). The lists on the website will be considered final no later than October 15th. The lists produced by the TOP TIMES/EVENT RANK SEARCH feature on the USA Swimming website will be considered the official lists.
- 6.5. A time that would have made the top ten list if correctly submitted prior to the deadline may be awarded a certificate of performance at the discretion of the Times and Recognition Committee. A supplemental list may be published after the list has been declared final. However, no previously recognized authentic time will be removed from the final listing.
- 6.6. The Times and Recognition Committee, with the recommendation of the Zone Top Times Subcommittee has the authority to resolve issues that may arise. Corrections and additions are the duties of the LSC tabulators. It is the LSC tabulator's responsibility to screen the lists posted throughout the year for discrepancies and omissions. Questions should be addressed to the LSC tabulators.
- 6.7. Each LSC shall appoint a Top Times tabulator to lead these responsibilities. A list of all LSC tabulators, and a list of the Zone Top Times tabulators, will be available on the web site. Zone Top Times Preview Lists will be posted on the Zone websites according to a schedule authorized by the Times and Recognition Committee.
- 6.8. Each LSC is responsible for printing and distributing the Top Ten certificates for their athletes. The certificate template will be available from the USA Swimming website and the LSC Top Times tabulator will use the Top Times Report from SWIMS to generate their list.
- 6.9. Until the National Top Ten Times list is final, lists of current age group top times achieved and retrieved from the USA Swimming, Zone and LSC websites are drafts and may contain errors.

7.0 TIME VERIFICATION PROCESS – APPROVED MEETS

Guidelines for Approved Meets beginning September 1, 2013

1. In order to comply with Article 202.6 in the USA Swimming Rules and Regulations, approved meets shall comply with USA Swimming technical rules.
2. Article 202.6.8D requires compliance with Article 102.10 Officials.
3. Per Article 102.10, an Administrative Official or additional Referee is required for all sanctioned and approved meets. The Administrative Official and Referee may not act in more than one officiating capacity.
4. In approved dual meet competition, the meet referee may also act as a stroke and turn judge. The starter may also act as a stroke and turn judge.
5. For a Y Closed League meet, a Y certified Administrative Official, or a Y Level II official acting in the administrative capacity can fulfill the requirement stipulated in Article 102.10.
6. For all other approved meets (non-closed league meets), such as a State Games meet, Black Heritage meet, or AAU competition, or USA-S club hosted approved meets, an Administrative Official certified by USA Swimming is required for approval authorization by the LSC.
7. The meet referee or designee is responsible for entering the AO into OTS along with the other

7.1. APPROVED YMCA AND AAU MEETS

- A. For YMCA Closed League Meets, effective September 1, 2006, the YMCA of the USA adopted the USA Swimming technical rules for the conduct of all of its swimming competitions. As a result, there are no longer any differences in the technical rules by which swimmers will be judged when participating in swimming competitions hosted by either USA swimming or the YMCA. As a further result, YMCA sanctioned swimming competitions (multi-team meets, large invitationals, and championship competitions) should be eligible to be treated as an “approved” meet as defined under USA Swimming Rules and Regulations and there is no longer a basis for “observed swims” with respect to YMCA swimming competitions.
- B. The following is a list of the requirements for a swim meet hosted by a YMCA swimming club or AAU club to be considered an Approved Competition:
- (1) Requests for approved meets should be submitted to the LSC Sanction Chairman of the LSC in which the meet will be conducted.
 - (2) YMCA clubs who are also USA Swimming clubs may host sanctioned competitions, but only in their capacity as a USA Swimming club and only if all competitors in the competition are members of USA Swimming.
 - (3) Written application for approval shall be made not later than the period established by the LSC prior to the competition. The LSC may establish a fee for processing such applications. Fees to the LSC according to their policies and by-laws may be assessed. Application for approval shall be accompanied by a complete meet or event information and statement of the nature and value of prizes to be awarded. Payment of a fee or expenses to the assigned USA Swimming officials shall not be a requirement for approval.
 - (4) An issued Approval is not transferable.
 - (5) No further Approvals shall be given if the YMCA or AAU club has failed to satisfy expense obligations to athletes or to award prizes as stated on its entry blank or meet information until such obligations are satisfied or the prizes awarded.
 - (6) No Approval will be granted if the words “Olympic,” “World,” “Nationals,” “United States of America,” or any derivative thereof is used in any manner in connection with the competition unless consent for such usage is obtained from USA Swimming.
 - (7) The following clause must appear on all approval forms and on all forms upon which official approvals are granted: “In granting this approval it is understood and agreed that USA Swimming shall be free and held harmless from any liabilities or claims or damages arising by reason of injuries to anyone during the conduct of the event.”
 - (8) Complete results shall be submitted to the LSC within a period of time established by the LSC.
 - (9) All approvals must be signed by an authorized representative of the LSC, and record kept by the LSC.
 - (10) An Approval may be withheld or withdrawn by the LSC if the competition was not conducted in accordance with the above requirements.
 - (11) If an event is to be contested in more than one LSC’s or country’s jurisdiction, the application for approval shall be submitted to the LSC in which the event begins. The LSC granting the Approval shall notify the other LSC(s) and/or the

governing body of the other country in which the event is being contested of the details of the event.

- (12) YMCA clubs who are also registered as USA Swimming clubs should be aware that USA Swimming insurance may not provide coverage when hosting an approved competition or when attending an approved competition if not all competitors from the club are USA Swimming members.

7.2. Mutual Guidelines for YMCA Teams, AAU Teams, and USA Swimming Officers for SWIMS Database

- A. The following criteria must be met if a YMCA or AAU team wishes to have times for its athletes entered into SWIMS:
 - (1) The meet must be run according to the guidelines of Part One, Technical Rules, USA Swimming Rules and Regulations. In lieu of an Administrative Official or second referee to comply with 102.10, a Level II Y certified official designated to fulfill the position of Administrative Official may be used at a Y meet.
 - (2) The meet shall be "Approved" by the host LSC according to its by-laws or formal policies and in accordance with the Requirements for Approval section of the Administrative Regulations of Competition of the USA Swimming Rules and Regulations.
- B. While the Y meet results file is official for YMCA purposes, in order to ensure that swimmers in an approved Y meet are able to represent the Y/USA Club team, the host team can require each Y team to send a list of a club's USA-S registered swimmers obtained from the USA-S Club Portal with their entries. At the conclusion of the meet, any swimmer who must be shown as UN in the USA- S database should be un-attached in the meet file and any relays the swimmer competed on should be deleted by the meet host. The meet host can also work with the LSC registrar and, if both agree, send a post meet recon file to the LSC, and then make any corrections upon receipt of the recon before submission of results to the LSC for USA Swimming purposes.
- C. Upon completion of a swimming competition and within seven (7) days of the end of the meet, the Meet Manager Back-up File should be sent to the SWIMS Times Officer in the LSC. The SWIMS officer will export a meet results file which will include the times for USA Swimming registered athletes for loading into SWIMS.
- D. Times loaded into SWIMS will show the athletes attached to the USA Swimming club name if that name is the same as the YMCA or AAU team name. If the name of the team is different, the times may show up as LSC UN. A USA Swimming member swimmer who is unattached will appear LSC UN in the database.

8.0 NCAA Meets

1. Beginning in September 2017, the NCAA adopted the Fina Technical Rules for swimming. NCAA meets are no longer required to be observed by USA Swimming. Times from NCAA meets in all divisions are eligible to be used for USA Swimming purposes if the following criteria are met:
 - A. The meet is a bona fide competition as defined in the current NCAA Swimming and Diving Rules and Interpretations Book. Bona fide competitions include the following:
 - (1) Competition is between two or more teams of the same gender at the same time and site, from different collegiate institutions.
 - (2) All competitors are eligible by NCAA standards.
 - (3) Meets must be on the institutions' approved competition schedule.
 - (4) Meet officials must be qualified and/or certified.

- B. For each meet, officiating must be in compliance with NCAA rules for Officials and their duties as stated in the NCAA Rule Book.
 - (1) There shall be a sufficient number of officials to properly conduct the meet. For dual, double-dual, triangular, and quadrangular meet competitions, it is recommended that a minimum of two, three, or four officials be used to properly observe all competitors equally and enforce playing rules.
 - (2) For championship and invitational competition, it is recommended that a minimum of six officials are used.
 - (3) It is the host institution or conference meet committee's responsibility to ensure compliance with the minimum number of officials or to receive mutual (unanimous) consent to change the minimum requirements.
 - C. Meet results shall be sent to ncaa@usaswimming.org within 72 hours of the end of competition. It is the responsibility of the USA Swimming Times Staff to ensure the requirements of a bona fide competition are met.
 - D. The NCAA Meet Referee shall have full jurisdiction over the meet and shall see that all rules are enforced.
2. If a NCAA institution hosts an LCM meet, the referee shall provide names and events to the USA Swimming staff leader or designee(s) for any competitor wearing illegal tape.

9.0 TIMES VERIFICATION PROCESS – OBSERVED SWIMS

- A. The intent of observing swims is to provide an opportunity primarily for high school swimmers who cannot compete in LSC sanctioned meets during their association season to achieve times that may be used to enter USA Swimming meets. An important difference between “Approved” and “Observed” is conformance to administrative rules and technical rules (required for Approval) vs. technical rules only (required for Observation).
- B. Observation is for the specific purpose of ensuring that swims performed by USA Swimming members are in compliance with the Timing Rules, Racing Course Dimensions, Starting Platform, and Individual Strokes & Relays sections of the Technical Rules portion of the USA Swimming Rules and Regulations. Meets run by dual certified officials (i.e., NFHS/USA-S, USMS/USA-S) do not require additional USA-S observers at the meet. The dual certified officials shall record any USA-S disqualifications for USA-S swimming rules which would not be disqualifications under the rules of the meet. Where the technical rules as listed in Article 101 are identical to those of the host organization, the judgement of the organization officials shall be sufficient.
- C. At meets which do have separate USA-S observers (a minimum of 2 is acceptable), the USAS observers shall record ONLY disqualifications for USA Swimming rules which would not be disqualifications under the rules of the meet. Where the technical rules as listed under Individual Strokes and Relays of the Technical Rules of the USA Swimming Rules and Regulations are identical to those of the host organization, the judgment of the organization officials shall be sufficient.
- D. An administrative disqualification or an organization disqualification that is not a violation of USA Swimming technical rules should not invalidate an achieved time. Either the dual certified officials or the USA-S observers shall work with meet administration to record/report the time when submitted to the SWIMS Times database for high school competitions.
- E. Following are certain minimum criteria that must be applied to all high school, Masters, and any other meets authorized to have swims observed. The LSC NTV officer has the responsibility of verifying compliance.
 - a) Timing must comply with the Timing Rules stipulated in the Technical Rules section of USA Swimming Rules and Regulations.

- b) If separate officials are being used for observation, officials must be present on the pool deck.
- c) The number of host association meet deck officials (high school, USMS, etc.) must meet the minimum requirements as stipulated in Article 202.8.3A, which must include a referee, a starter and two stroke and turn officials.
- d) The meet shall be on the published calendar of the appropriate school, league, conference, etc. Observation of high school competition shall be authorized for meets in the championship progression and large invitational meets run according to championship protocols and specifically authorized by the USA Swimming staff leader or designee(s).
- e) A time trial held in conjunction with a meet whose swims are authorized for observation may also be observed if the time trial will be officiated to the same standard as the authorized meet.
- f) All times for observed swims in high school meets shall be entered into SWIMS as LSC UN with the exception noted in 9.1.6D.
- g) Observed swims not in compliance with USA Swimming rules should be recorded and compiled by a USA Swimming NTV official in the host LSC.
- h) The LSC is encouraged to provide a list of valid observed swims from meets posted on the LSC website, or if complete results have been posted elsewhere, a link to the results and a listing of those swims that were NOT in compliance with USA Swimming rules. A record of observed swims not accepted should be kept by the LSC NTV officials for a period of one year.
- i) Upon request, and although not a rules requirement, notification of any swims not accepted due to USA swimming technical rule violations may be provided to swimmers involved.

- F. To have a meet authorized for observation of swims, a request must be made to the designated LSC official at least ten days prior to the meet in accordance with LSC rules.
- A. For meets other than a season-culminating Championship, use Form A. Should Form A be approved by the LSC, it must then be forwarded to the USA Swimming staff leader or designee(s). The request must include a reason and explanation for request.
 - B. For all meets leading directly to a season-culminating championship, use Form B. Form B may be approved by the LSC NTV Officer. (The LSC is responsible for determining whether observation can be properly conducted and will determine which meets will be authorized for observation of swims.) LSC NTV officers shall send the list of these meets and dates to the NTV subcommittee chair.
 - C. Official times for swims in observed meets should be entered within two weeks of the competition into SWIMS by an LSC NTV official or LSC SWIMS officer upon receipt of the following:
 - 1. Complete legible verification requests (if non-electronic results are utilized)
 - 2. Official electronic meet results or printed final results with notations indicating those swims not in compliance with USA Swimming Rules. The designated USA Swimming certified official present must attest to the LSC NTV official that the meet was run in accordance with the minimum criteria listed above. The LSC NTV official may determine that all times for athletes with full legal names and birth dates or USA Swimming ID numbers will be loaded into the SWIMS database without a specific request.
 - D. The time for a relay achieved in a high school meet may be entered into SWIMS for a USA Swimming club provided all four relay swimmers represent the same USA

Swimming club at the time of the swim. All four names must be included, and a specific request be made for this manual data entry into SWIMS. Note that some state high school associations may not permit club affiliation, even for relays, during the high school season.

- E. If an observed meet is receiving blanket observation (all swims observed) individual verification requests may be made after the meet.
- F. The LSC may choose to load all observed times and relay lead-off splits from observed meets into SWIMS. In this case, the coach can assist in the process by making sure their swimmers are entered into the meet using their full legal names and that the DOBs are provided. If a swim is compliant with USA Swimming technical rules and the meet has received blanket observation, all swims (unless a disqualification is noted) are valid times. The LSC may establish a fee for entry of observed swim times.

10.0 USA SWIMMING SCHOLASTIC ALL AMERICA PROGRAM

- 9.1. The USA Swimming Scholastic All America Team is comprised of high school student athletes who have a grade point average of 3.5 or higher for academic subjects and no grade lower than a C and have competed in an individual event in the Open Water National Championships, IPC or USPC meets stipulated by the Times and Recognition Committee or have a qualifying result in the SWIMS database during the designated qualifying period. The qualifying period shall be August 16th through the following August 15th. Applications for the just completed academic year will open on June 1 and must be submitted by August 15th, the last day of the qualifying period.
 - A. Applicants must have completed 9th, 10th, 11th, or 12th grade.
 - B. Applicants must be USA Swimming member athletes at the time of the swim and the time of the application.
 - C. Applicants must have participated in an individual event within the qualifying period in a meet whose results are in the SWIMS database or have competed in the Open Water National Championships or the appropriate Disability Championship meet. Achieved times (pool) must meet the qualifying standards posted on the USA Swimming website for the current year. (Member Resources/Awards and Recognition/Scholastic All America)
 - D. Relay-only swimmers do not qualify for SAA.
- 9.2. Awards for Scholastic All America recognition will include:
 - A. Three certificates to each individual achieving SAA Status (one for the athlete, one for the school, and one for the USA Swimming club).
 - B. A special award to each individual named to the SAA team three times (four times beginning in 2021).
 - C. Outstanding Achiever recognition to each individual who places first at the USA Swimming National Championships and maintains a 4.0 GPA.

39.0 USA Swimming Measuring and Certifying Competition Pools

Date of adoption / Last revision: November 23, 2025

This document is divided into 4 parts.

Part 1 is a comprehensive Question and Answers section which will provide you information on the most commonly asked pool certification and measurement subjects.

Part 2 provides an overview of general background information on pool measurement requirements. This section also provides guidelines and suggested protocol for measuring the length of lanes using a portable laser measuring device.

Part 3 provides professional surveying/engineering firms with a suggested protocol to measure lane length using "Total Station" surveying equipment. This section may also be used by volunteers with appropriate engineering or surveying background and knowledge who may wish to commission or undertake a measurement project.

Part 4 is the parts of the USA Swimming Rules and Regulations that are applicable to pool dimensional standards and are provided for ease of reference. It is intended that this part be updated whenever the rules change, however if the version date is more than one year old, the current rules should be referred to either in the printed book or on the USA swimming Web site.

PART 1 – QUESTIONS AND ANSWERS

Questions and Answers - General

Q. I don't see a requirement in the USA Swimming Rule Book to have all pools measured. Does my pool have to be measured in order to host a USA Swimming competition?

A. Although routine measurement and certification is not currently required under USA Swimming rules, it should be considered a best practice to have current certified measurements for all competitive pools on file with USA Swimming. World, American, U.S. Open, and National Age Group Records require that the pool be certified. If the potential record were swum in an uncertified pool and the pool was subsequently measured and found not to meet the length standards, the potential record would not be accepted.

Q. Our facility does not ever host competition where athletes could potentially set records. Why should we get our pool certified?

A. Competitive swimming is based not only on head-to-head competition, but competition against the clock. The USA Swimming Rules and Regulations measurement standards are intended to ensure that swimmers achieving an official time, do so under as close to identical competitive conditions as possible.

Q. What happens if we go through the measurement process and a discrepancy is found?

A. During the comprehensive measurement process, it is possible that a range of issues may be found with the pool. These issues may include one or more lanes not meeting length requirements, starting blocks being too high, backstroke flags being improperly positioned, etc. Some of the "fixes" to these pool specification issues are relatively easy and inexpensive. Other problems can be prohibitively expensive to address. USA Swimming maintains a staff of trained consultants that can help your facility come up with a plan to address the discrepancies.

Q. We measure our pool and it comes up short.... now what? Can we still hold our meets?

A. If the pool measures short, it is going to be up to the Local Swimming Committee (LSC) to determine what the status of that pool will be for competitive swimming. The times achieved in a pool that does not meet the minimum length requirements of the rules cannot be put into the database and used for proof of time or athlete recognition programs (National Top 10, National Age Group Records, etc.). A Local Swimming Committee could choose to

allow competitions to be held in those pools and use times achieved from that pool to be used for its' purposes – for instance to qualify for meets within the LSC boundaries.

Should an LSC decide to allow competition in non-conforming pools and times achieved in those competitions be used for LSC purposes, it is strongly recommended that the following statement be included in the Meet Information.

“The competition course measurement does not comply with USA Swimming Rule 103.3. Times from this competition will not be loaded into the SWIMS database and will not be used for any USA Swimming proof of time or national recognition program purposes.”

Q. I see inexpensive laser measuring devices available at home improvement stores. Can we use them?

A. Probably! Provided the device is acceptably accurate, a suitable measuring protocol is followed, and the certification is supervised and signed off by a licensed surveyor or by a professional engineer who understands surveying and the limitations of the equipment and protocol used. Indoor pools are generally not a problem. Outdoor pools can be difficult to measure during high light situations. Look in Part 2 of this document for more detailed information.

Q. We have a pool with a moveable bulkhead. What are the measurement requirements?

A. Bulkhead pools provide special challenges. After the bulkhead is set in position and AFTER lane lines have been tightened, the lane lengths of all lanes must be verified. Before and after each session, the Referee must verify that the bulkhead pins are still in position. If a potential record time is achieved in a session of the meet, the lane in which the potential record was set must be measured and attested to by a licensed surveyor or professional engineer before the pool conditions change – including loosening of any lane lines attached to the bulkhead and removal of timing pads.

PART 2 – LANE LENGTH AND POOL CERTIFICATION

Overview and “Handheld” Laser Measurement

Lane Length

Requirement – 103.3.1

Long Course: 50m (164' 0½")

Short Course: 25 yd or 25m (82' 0¼") Tolerance against length: minus 0mm, plus 30mm (13/16")*

Measurement Range: At all of both end walls in a vertical plane extending 0.3 meters (12") above and 0.8 meters (2' 7½") below the surface of the water.

* Although an “over” tolerance is specified, for most competition it is not an important consideration provided lanes are not excessively long. For a pool to be considered “fast” and for high level meets the length of each lane with touch pads in place should be well inside the “maximum” tolerance, but not shorter than the minimum length.

Practical length certification requirements:

Measurement of each lane strictly in accordance with the above requirement is not realistically possible in operational conditions, however, certification that the length is not less than the minimum requirement can be given by sampling the minimum lane length in at least two locations in each lane by someone who has the training and experience to understand the limitations of the measuring equipment and methodology that is used.

Suggested measurement locations are:

1. The edges of the “T” cross bar on each side of the lane centerline, or,
2. The center line and a fixed distance from the lane divider on one side of each lane and both sides of one of the outside lanes.

Lane lengths may be measured with or without pads in place. If the lengths are measured without pads the thickness of the pad, or pads, must be subtracted from the measured length. As a guide, the thickness of each properly mounted pad varies from 5mm (0.016ft, 3/16") for a thin pad (Daktronics) to 15mm (0.05ft, 5/8") for thick pads (Colorado, Omega).

Note: "Thick" pads, in good condition and mounted properly and flush against the wall, can be 10mm thick.

World Aquatics sets a 10mm thickness limit in their facility rules.

Use of "straight edge" devices that extend 0.8 m (2' 7½") below, and 0.3 m (1') above, the normal water level and set to vertical with a 1:2000 (0.0005 inch per inch or 0.5mm per m) precision bubble level will allow measurement between the furthest projecting points in the vertical line at each end. (See Figure 1)

The length error potential if similarly, precise straight edges are used at each end is between minus (-)1mm and plus (+)1mm. Note: The error potential for "handyman" type levels is more than $\pm 5\text{mm}$ ($\frac{1}{4}$ "); which is not acceptable in "close" situations.

Note: Relative variation from the horizontal or from the perpendicular measuring location at each end in a short course (yd or m) pool of 3" (75mm), or 4" (100mm) in a long course pool, will result in an additive error of about 0.2 mm for each deviation.

The use of laser length measuring devices with a precision of $\pm 0.5\text{mm}$ over 50 m is recommended. The measuring device should be set against a fixed reference point on a stable platform attached to one of the vertical straight edges and aimed at a stable target attached to the other vertical straight edge at the other end. Care should be taken to correct the measurement to adjust for any offsets created by the set up. See Figure 1 and Figures I, Ia, Ib and Ic in Part 3.

Note: The use of steel surveyor's tapes by anyone other than a professional surveyor is not recommended. Steel tape measurement requires a properly calibrated tape, sophisticated corrections for temperature and tension, in addition to the "location errors" noted above, and special field techniques and equipment.

Vinyl, fiberglass, cloth, or any other tapes are not accurate or stable enough for measurement for lane length certification.

Measurement Methodology

Refer to Figure 1 in Part 2 for a suggested methodology for using small laser measuring devices to certify and recertify lanes in a single pool location. This methodology requires a small investment in equipment (laser, levels, and support frame) and training of users, but has little or no cost associated with verification and recertification measurement, particularly if a volunteer surveyor, engineer, or other professional oversees the measurement.

Refer to Part 3 for a suggested methodology for using a "total station" surveying instrument to certify a fixed wall pool or to certify and recertify lanes in moveable bulkhead pools. This method usually requires a professional surveyor and a survey crew and can be expensive if used to recertify lanes in moveable bulkhead pools.

Part 3 also includes suggested adaptations to the equipment for lane length measurement in pools with differing end wall configurations.

Both methodologies require an understanding of the limitations of the equipment being used and the errors introduced into the measurement by the equipment and users.

Reporting

Report the shortest of the measured lengths in each lane to the nearest:

- 1/8th inch (0.01ft, 0.003m, 3mm) for 25 yd pools
- 0.003 m (3mm, 0.01ft, 1/8th inch) for 50m and 25m pools. Preferably report the shortest lane length both with and without touch pads.

Note whether touch pads were in place during measurement or a thickness is assumed. Also note:

- the type of touch pads used or assumed (thick or thin) and,
- any features of the pool that might affect the lane length if touch pads are used, e.g. retaining strips for vinyl liners, bumps or projections into the pool, transitional curves less than 800mm below the surface, etc.

Note: World Aquatics requires end walls of pools and touch-pads, if used, to extend to 0.3 m (1 ft) above the water surface at both ends. USA Swimming and other swimming organizations in the USA do not require the end walls or touch pads to extend above the water surface. USA Swimming, however, considers any projection into the pool in the range 0.3 m above to 0.8 m below the water surface to define the lane length.

Views to Ends

Figure 1
Using "Hand Held" Laser Measuring Equipment

Water Depth

Measurement Methodology

Measure Course depth using a stiff, wide metal retracting tape measure (when less than 2 meters) at 1m and 5m from each end and mid length of lanes. Measure each lane in the shallowest location across the full width of the lane. Measure from the water surface level at the time and, if necessary, adjust to the normal water level or overflow control level.

Note: If there are shallower locations between the 1m and 5m transect in each lane measure the depth and note the location and include the information in the report.

Lane Width

Measurement Methodology

Measure the width of each lane from lane rope anchor to lane rope anchor at both ends using a stiff, wide metal retracting tape measure.

Starting Platform Height

Measurement Methodology

Measure Starting block heights from the water surface to the top front edge of each block that is in place and, if necessary, adjust to the normal water level or overflow control level. Note the location of each starting platform front edge and backstroke start hand grips relative to a vertical projection of the pool end wall or timing pad face.

Backstroke Flag Support Location

Measurement Methodology

Measure the location of the center of each support pole or pole hole, cable, or hook from the nearest end wall with a 5 m (16' 5"), or longer, steel tape.

15m Marks

Using a 15 m long steel tape, or other measuring device, mark the 15m locations on the sides of each racing course. Pool operators should be encouraged to make these reference marks permanent so that proper location of 15m markers in each lane can be verified by officials.

Midpoint Rope

In 50m courses note if there are midpoint rope anchor posts or post holes and that they are located 25m from the end walls.

PART 3 – SUGGESTED PROCEDURE FOR MEASURING COMPETITIVE SWIMMING POOLS

A Suggested Procedure for Measuring Competitive Swimming Pools for lane lengths using "Total Station" surveying equipment.

Measurement

Equipment:

- a surveying "total station" reading angular measurement to 5 seconds, or better, and distances to an accuracy of better than 2 mm (1 mm preferred) over 50 m. Set to read horizontal distance to the center of the prism pole.
- Tripod for the Total Station
- reflecting prism or target
- ft long prism pole

- bubble level with sensitivity better than 10 minutes of arc for 2mm of bubble movement, to “plumb” the prism pole for readings
- wide, retracting, tape measure for measuring lane widths, platform height and pool depth and for setting measuring reference marks
- Metric/imperial (min 15 m long) tape for measuring backstroke flag locations and for measuring or setting 15 m reference marks
- electrical tape or waterproof marker to set reference marks on the prism pole and, possibly, on the pool deck and walls
- notebook to record data
- Portable computer and software (spreadsheet, surveying or other “math”, and word processing) to reduce and present collected data.

Lane Lengths

Measurement may be made either with or without timing touch pads in place.

Measurement Methodology

- Measurement location. There are two options – a) fixed offsets on each side of the lane centerline, or b) the centerline and edge of each lane. The choice will depend on the accessibility to the lane center line if starting platforms are in place.
 - Mark each lane in two locations at each end approximately 0.5 m (18 to 21 inches) each side of the lane center line. Set the marks at the same relative locations, $\pm 25\text{mm}$ (1 inch), at each end of the lane. As an alternative, the outside of the end of lane “T’s” painted on the end walls may be used if they are the same at each end of each lane.
 - Mark the center of each lane and a point approximately 0.1 m (4 inches) just inside the lane divider at both ends of the outside lanes. Choose either the lane 1 or lane 8 side of all the internal lanes for a side mark at each end 0.1 m from the lane divider.
- Mark the prism pole at 0.8m (2’ 7½”) from the non-prism end (ignore any base cone); and again at 1.1m (3’ 7½”) from the end. These reflect the below and above water level lane length measurement limits. See fig. I.
- Set and level the total station on its tripod approximately midway along the length of one side of the pool. Include the appropriate prism offset into the total station setup. See fig. II.
- Select a permanent mark for a reference angle verification backsite and record the angle. The angle will only be used to verify the Total Station setup has not changed during data collection. It is not required for calculations. See fig. II.
- At the first end of lane location have the assistant place the prism pole (with prism) on the first reference location with the 0.8m mark at the water level and set it vertical using the prism pole bubble level. The pole, when vertical, will be set so that one edge is resting on the pool wall closest to the other end of the lane in that location. This may be below or above the water line. See fig. II. If the pole, when vertical, rests on a point more than 0.3 m (one ft) above the water surface, supplemental measurements will need to be taken. See “Notes”.
- When the pole is vertical, use the total station to take the horizontal angle (relative to the total station setup zero) to the center of the prism and the horizontal distance to the center of the prism pole. Record the angle and distance. (Note: Read and record the slope distance and vertical angle if the total station only measures the slope distance. Calculate the horizontal distance for use in the “cosine rule” calculations.) See fig. II.
- Move the prism pole to the second location in the lane and take and record the angles and distances. Repeat the process for each marked location in a circuit around the pool.
- When the circuit is completed, return to the reference mark and verify that the angle is at or close to the initial reading. A variation of less than 10 seconds of arc from the original reading should be acceptable.
- Leave the instrument set up and calculate the length of each lane between the corresponding points at each end using a calculator, proprietary program or spreadsheet developed for the purpose. (See “calculation”, below.)

- If there are major variations in length between lanes, verify the data entry for the lanes in question (typically transposed numbers or incorrectly matched lane locations). Supplemental readings may be required on some lanes if recording of total station data is suspect.

Notes: In some pools there may be projections into the pool that could affect the lane length measurements, such as:

- A curb or coping more than 1 ft above the water surface that project further in to the pool than the general line of the wall. An offset piece 1.1m (3' 7½") long can be clamped to the prism pole to bypass the projection. (See fig. 1a). The width of the offset piece should be added (times 2, if used at both ends) into the lane length calculation. Additionally, starting platforms should be checked to ensure the leading edges line up with the pool end wall; not the edge of the coping.
- A thin retaining strip that holds a vinyl liner in place. These are typically about ¾ inches wide, project about a ½ inch into the pool and extend around the pool about 4" to 8" below the surface. If a touch pad is used it will be moved further into the pool. If a touch pad is not used it is very unlikely to have an impact on the effective length of the lane. Figures 1b and 1c show how these situations can be measured.
- Care should be taken to note any projections into the pool that may affect the placement of touch pads if they'll be used. If a projection will affect pad placement a measurement should be taken over it and the corresponding location at the other end. If it is a small projection, say less than 2 or 3 square inches in area and projecting less than an inch and it will not impact location of a touchpad, it may not need not be measured, but should be noted.

Calculation

The "cosine rule" is used to calculate the distance between the centers of the prism pole at the corresponding locations at each end of the lane. Adjustments are made for the diameter of the prism pole, touch pads and other conditions which affect the measurement.

Reference direction

$L = c + p + \square - n \cdot t = \text{Lane Length}$ where
 $c = (a^2 + b^2 - 2 \cdot a \cdot b \cdot \cos(\angle C))^{1/2}$ - "cosine rule"

L = lane length with n touch pads in place.

a = horizontal distance from the total station to the center of the prism pole at one end b = horizontal distance

from the total station to the center of the prism pole at the other end

c = calculated distance between the center of the prism pole at each end of the lane

$\angle C$ = included angle between the readings for a and b which is equal the total station horizontal angle to “ b ” minus horizontal angle to “ a ”

p = prism pole diameter

\square = other adjustments – see discussion. Could include Offset Bar widths (-ve).

n = number of touch pads used in the calculation. “ n ” may be 0, 1 or 2. If touch pads are set in place when the measurements are taken, use $n = 0$ and include a note indicating the number of pads in place for the measurement.

t = touch pad thickness when in place (determined from face of wall to face of pad)

– when pads are in good condition and mounted properly, t is usually 10 to 15 mm for thicker pad types (Colorado, Omega, etc.) and 4 to 6 mm for thinner pad types (Daktronics).

COST

Suit Servicing

Suit servicing refers to a suit manufacturer providing practice suits, technical suits, caps, goggles, training aids, performance apparel, and/or other technical items to a team, individual athletes, and/or coaches sponsored by the suit manufacturer at an Event.

Suit servicing areas are defined as the full facility in which an Event is being hosted (e.g., ticketed spectator stands, competition pool deck, onsite retail area, practice pool deck, fan zone activation area, entrance area, and hallway corridors).

USA Swimming will provide suit servicing credentials to suit manufacturers that are Partners at no cost. Suit manufacturers that are not Partners (“Non-Partners”) may purchase one credential per event at the below prices prior to each event.:

Event	Pre-Purchased Price	On-Site Purchased Price
Speedo Sectionals	\$5,000 per event	\$10,000 per event
TYR Futures Championships	\$5,000 per event	\$10,000 per event
TYR Pro Swim Series	\$10,000 per event	\$20,000 per event
Speedo Junior National Championships	\$20,000	\$40,000
Speedo Winter Junior Championships	\$20,000 per event	\$40,000 per event
Toyota U.S. Open	\$30,000	\$60,000
Toyota National Championships	\$30,000	\$60,000

⁶ Due to their limited role, Event Staff are not in positions of authority over or have direct or frequent contact with athletes.

U.S. Olympic Team Trials – Swimming	\$50,000	\$100,000
--	----------	-----------

Non-Partners who are found to be providing service without purchasing a proper credential from USA Swimming in a suit-servicing area as defined above will be marked with an infraction and will be asked to leave the premises that are under the control of USA Swimming and the host. Should any Non-Partners incur more than three infractions regarding suit servicing credentials, then such Non-Partner will not be allowed to purchase any suit servicing credential at future events (pre-event or onsite).

Appendix I: Additional USOPC Safety Requirements

Allegations

USA Swimming must notify the USOPC's Security & Athlete Safety Office as soon as possible but no later than 24 hours after learning of an allegation of Prohibited Conduct, as defined in the Code, that occurred at an Olympic & Paralympic Training Center ("OPTC"), a USOPC Sponsored Event, or at any third party sponsored event in which the USOPC sends a delegation (a "USOPC Delegation Event"). Any temporary measure(s) imposed by USA Swimming and/or the Center in response to an allegation must be included in the required notification (as described in the following section).

This notification requirement is in addition to any other requirement to report an allegation to the Center and/or law enforcement. Any such notifications shall be submitted by email to athlete.safety@usopc.org.

Sanctions and Temporary Measures

USA Swimming must notify the USOPC's Security & Athlete Safety Office as soon as possible but no later than 24 hours of imposing its own or being notified of Center-imposed sanction(s) and/or temporary measure(s), affecting Participants who USA Swimming knows, or reasonably expects, to:

- be nominated for or selected as a Participant to a USOPC Delegation Event, • be a Participant at a USOPC Sponsored Event,
- have access to an OPTC, and/or
- receive a benefit and/or service from the USOPC as outlined in the USOPC Athlete Safety Policy.

As well, the USOPC Security & Athlete Safety Office should also be notified in the event of any change or removal of any such sanction and/or temporary measure(s) within 24 hours of such change by the USA Swimming or notified of a change or removal by the Center. Any such notifications shall be submitted by email to athlete.safety@usopc.org.

Jurisdiction

USOPC Assertion of Jurisdiction

The USOPC will assert jurisdiction over any alleged incident of Prohibited Conduct which is reported to have occurred at an OPTC, USOPC Sponsored Event, or a USOPC Delegation Event where the Center has not exercised exclusive or discretionary jurisdiction, and over matters the Center refers to the USOPC. In limited circumstances, the USOPC may elect, in its sole and absolute discretion, to refer the incident and jurisdiction thereof to USA Swimming.

Applicable Policies and Procedures

The USOPC Athlete Safety Policy shall apply and will govern the response and resolution of any allegation for which the USOPC asserts jurisdiction. In instances when the USOPC declines jurisdiction, the USA Swimming shall be responsible for the response and resolution of the allegation according to its own policies and procedures.

Interference/ Restrictions/Enforcement

USA Swimming shall not interfere or attempt to influence the outcome of any Prohibited Conduct investigation regardless of jurisdiction. USA Swimming prohibits any individual who is an employee, agent, or contractor, from assisting a member or former member in obtaining a new job (except the routine transmission of administrative and personnel files) if the individual knows that such member or former member violated the policies or procedures of the Center related to sexual misconduct or was convicted of a crime involving sexual misconduct with a minor.

If USA Swimming Participant is sanctioned or subject to Temporary Measures under the USOPC Athlete Safety Policy, that sanction(s) or Temporary Measure(s) must be reciprocally enforced by and between all NGBs and LAOs within the Olympic and Paralympic Movement.

Appendix III: Officials' Committee – Apprentice Official

As required by the policy established in the USA Swimming Policy Manual regarding registration of apprentice officials as non-members, apprentice officials need to complete all current membership requirements within 60 days of initiation of training. The 60-day period shall begin on the date he/she first performs his/her on-deck training. It shall be the responsibility of the LSC Officials Chair to monitor all apprentice officials for completion of the membership requirements. If an apprentice official does not complete all current non-athlete membership requirements prior to the 61st day after he/she has first performed on-deck training, then he/she shall be prohibited from being on the pool deck until they have completed those requirements.

Appendix IV: Officials' Committee – National Championship Policy

CRITERIA USED FOR CONSIDERING AN OFFICIAL FOR AN ASSIGNED POSITION AT A NATIONAL CHAMPIONSHIP¹

Criteria considered in determining assigned positions (in random order and not all inclusive):

- Qualified and proficient in the assigned position
- Demonstrated knowledge of the rules and regulations
- Demonstrated knowledge of duties and responsibilities of the assigned position
- Demonstrated proficiency in position being considered, i.e. CJ, starter, deck referee, admin referee and meet referee
- Committed to all levels of swimming and not just the national or international deck
- Positions worked at National meets during previous years
- Individual evaluations and recommendations
- Recommendation of both the USA Officials Chair and USA Swimming as to the Meet Referee and the recommendation of the Meet Referee, the USA Officials Chair, and USA Swimming as to the other assigned positions.

Date of adoption / Last revision: Passed May 2011, Board of Directors Meeting

¹ Not all criteria must be met in order to be considered. As with any officiating position, all officials serve at the pleasure of USA Swimming and will be assigned based on what USA Swimming believes is in the best interest of the organization.

Appendix V: Officials' Committee International Championship

Criteria¹ considered for nomination (or re-nomination) as an official for the World Aquatics list (in random order and not all inclusive):

- Age²
- Demonstrated good communication skills
- Demonstrated proficiency in position considered, i.e., referee or starter
- Committed to all levels of swimming and not just the national or international deck
- Participation at national meets, especially those where application was submitted to work the meet. Appointed meets (Olympic Trials, Pan Pacific Championships, etc.) are not considered.
- Individual evaluations
- Ability to diplomatically and skillfully represent USA Swimming at international events
- Recommendation of the USA Swimming Officials Chair, the International Relations Committee, and USA Swimming as well as other appropriate senior members of the USA Swimming community

Items considered when nominating an official for an international assignment (in random order and not all inclusive):-

- Olympics, World Championships, and other World Aquatics events³**
 - Currently on a World Aquatics List
 - Availability
 - Seniority
 - Specific needs of the competition
 - Recommendation of the Officials Committee

¹ Not all criteria must be met in order to be considered. It is the goal of the Officials Committee and USA Swimming generally to place officials on the deck at International and World Aquatics events with the ultimate goal of placing officials on the Olympic and World Championship decks. Accordingly, assignments will be based in part on achieving this goal which may mean that one or more USA World Aquatics officials may be given preference in assignments (out of rotation or seniority). The fact that a person is on the World Aquatics list does not necessarily mean they will officiate at a World Aquatics sponsored meet. Final selection of officials nominated for World Aquatics competitions is the responsibility of the World Aquatics Technical Swimming Committee. Once an official has officiated at the Olympics games, it is understood that they may rotate off the World Aquatics list when their current term expires.

² Currently World Aquatics has an age limit. If this restriction is ever eliminated, then age will become less of a factor in the selection of officials for the World Aquatics list

³ A person being considered for this assignment must still meet those criteria for selection as a World Aquatics official. If for any reason, the Officials Committee, the Officials Chair or USA Swimming do not believe the person meets that criterion, then they may not be nominated for participation at the event even though they may be the most senior World Aquatics official or next in rotation.

- Previous assignments⁴
 - Evaluations or comments from previous assignments
 - Recommendation of both USA Official Committee Chair and USA Swimming
 - Participation at National meets.
- **Other international competitions**⁵
- Considerations in the NOMINATIONS listing
 - Level of participation at national meets
 - Nominations do not need to hold current World Aquatics credentials
 - Availability
 - Specific needs of the competition
 - Goals and objective of the USA Swimming
 - Recommendation of both the USA Officials Committee Chair and USA Swimming

Date of adoption / Last revision: Passed May 2011, Board of Directors Meeting

⁴ Other than USA Officials on the TSC, if any official has worked the Olympic Games, he or she may be taken out of rotation and not assigned to any further international meets.

⁵ A person being considered for this assignment must still meet those criteria for selection as a World Aquatics official. If for any reason, the Officials Committee, the Officials Chair or USA Swimming staff do not believe the person meets that criterion, then they shall not be appointed, or name submitted for participation at the meet.

Appendix XII: Sanction Review Process – Questions 7 Scenario

The following questions and scenarios have been developed as one means of clarifying the purpose and intent of the Sanction Review Process and the authority of the Zone Sanction Appeal Panel (ZSAP). The ZSAP is intended to be a decision-making entity that is utilized only when all efforts at negotiation and mediation at the LSC level have failed. The ZSAP can side with one or the other party or it can decree a compromise solution. In all cases, the decision of the ZSAP is final.

- 1) A club / organization from outside the LSC requests a sanction from the LSC where the competition is to be held. The outside club / organization is denied a sanction for any number of reasons, but the meet otherwise complies with the requirements for a sanction under Article 202 of the USA Swimming Rules. Can the outside club file a sanction appeal?

Yes. However, it is important to keep in mind that the team requesting the sanction should have made every effort to negotiate with the LSC and follow their guidelines and procedures to a reasonable extent.

- 2) A club would like to offer a meet that does not follow the LSC rules / guidelines for meets that can be offered on a particular non-championship weekend. The club would like to offer a Senior meet that is open to everyone who meets the time standard. The weekend is, by rule, reserved for only AA level competition. So, the Senior meet does not comply with the established LSC rules. Can the club wishing to host the Senior meet file a sanction appeal?

Yes. The host /petitioner can file a sanction appeal. In this situation, the ZSAP could consider the appeal, review the process followed, and make a recommendation to or negotiate with the LSC, but the ZSAP could not direct the LSC to grant a sanction.

- 3) If a member club / organization wants to charge entry fees or a facility fee that differs from LSC guidelines, does the ZSAP have authority to overrule the LSC guidelines?

No. The rulebook specifically states that fees for Senior and Age group competition shall be determined by the LSC.

- 4) The Ohio LSC (Central Zone) borders the Kentucky and West Virginia LSCs (both So. Zone) on the south and the Allegheny Mountain LSC (Eastern Zone) on the east. Which ZSAP holds jurisdiction if a team in WV wants to host a swim meet in Ohio and Ohio denies the sanction request?

The Zone within which the meet would be conducted (in this case, the Central ZSAP) has jurisdiction.

- 5) A popular meet on the LSC meet schedule reached full capacity the day following the entry deadline. One of the clubs whose entries were not accepted quickly organized an alternative meet for their swimmers and other teams whose entries were also turned away. The LSC has denied a sanction for the second meet because LSC policies do not permit another meet on that weekend. Can the team trying to host the alternative meet appeal the negative sanction decision to the ZSAP?

Yes. The host /petitioner can file a sanction appeal. In this situation, the ZSAP could consider the appeal, review the process followed, and make a recommendation to or negotiate with the LSC, but the ZSAP could not direct the LSC to grant a sanction.

- 6) An LSC requires that all clubs desiring to bid a meet for the upcoming season must attend the LSC meetings and present their bids in person. The failure to do so means that the club will not be awarded any sanction. If a club from outside the LSC wishes to bid a meet within the LSC and is denied the sanction for its failure to participate at the meeting, does the ZSAP have the authority to review this decision?

Yes. However, it is important to keep in mind that the team requesting the sanction should have made every effort to negotiate with the LSC and follow their guidelines and procedures to a reasonable extent.

- 7) If a sanctioning LSC will only grant a club / team from another LSC a sanction if the meet referee or other key officials are certified by the sanctioning LSC, does the ZSAP have authority to review this decision?

Yes, as long as the proposed meet complies with the requirements for a sanction under Article 202 of the USA Swimming rules. However, the team requesting the sanction should have made every effort to negotiate with the LSC and follow their guidelines and procedures to a reasonable extent.
