USOC Sports Medical Games Requirements

PURPOSE

The USOC has developed medical requirements to ensure the safety of athletes during Games (Olympic, Paralympic, Pan American and Para Pan American, etc.). This policy addresses equipment requests and minimum standards for all NGBs and medical providers attending games.

POLICY

1. Requests

NGBs must identify medical support requests to the USOC Sports Medicine department. These requests must specify any supplies, equipment, and other medical support provided at the Games. Anti-doping concerns or comments should also be identified. Collected information will be reviewed by the USOC Managing Director of sports medicine who will then identify and communicate the level of support to be provided by USOC Sports Medicine. Any changes to the requested sports medicine support should be immediately forwarded to USOC Sports Medicine. In cases where medical services or materials are not identified, the USOC cannot guarantee support for additional or late requests because of time, budget and other factors.

2. NGB Health Care Providers

NGBs must nominate and allocate Games credentials to NGB identified health care provider(s) to support the NGB sports medicine needs during the games. Any potential NGB medical provider who *could* be nominated to provide services must be identified by the NGB no later than the due date for the respective Games Long List. Additionally, all NGB medical providers must meet the criteria as identified in the NGB's approved Additional Officials Selection Procedures, along with the additional criteria outlined below.

The medical staffing list will include anyone who will potentially be credentialed by the NGB and/or use a day pass to provide services at an Olympic/Paralympic Village or a High Performance Training Center. Health care providers must meet minimum qualification standards which are identified below by their specialty without exception. NGBs must ensure their identified medical staff can meet these standards prior to advancing their nomination for a Games credential or day pass access. If the provider is not licensed in the United States, they may be ineligible to be credentialed. In order to meet expected standards of care and mitigate risk management issues, selected provider(s) must meet the below minimum qualifications in addition to the Selection Procedures criteria to provide medical services at games. These qualifications include:

- 1) Meet all criteria identified in the USOC Volunteer Program Application for specific specialty (Attachments located at www.teamusa.org/medicalvolunteer). On occasion, specific supporting documentation will be requested at the discretion of USOC Sports Medicine.
- 2) Successfully pass a medical credential review and criminal background check at or above USOC standards with the National Center for Safety Initiatives (NCSI)
- 3) Review of the venue emergency action plan with USOC Sports Medicine staff prior to the first scheduled practice or event.
- 4) Complete required Medical Team Education Modules addressing Anti-Doping, Safe Sport and/or other prerequisite training.
