2. Click “Competition” and select “My Athlete Meet Entries”

- a. This page works by looking at the logged-in user and finding any athlete memberships associated with that user. The logged-in user might be an athlete, or they might be a parent, and the athletes would be their children added in the “My Family” section on the dashboard. This page will show any meets that the athletes are eligible to enter or were already entered into by their team.
- b. Use the filters on this page to find the meet you are looking for. The meet name is in the second column. If applicable, identify the OME Meet name in the first column that you’d like to enter. The meet organizer should have them labeled clearly. Please contact them if you have any questions about which OME Meet you should use.
