Swimmingly

Swim Meets, Made Simple

Every team deserves to run safe and simple swim meets.

THE PROBLEM…

1. Cost (day of meet setup cost)
2. Access to equipment
3. Swim meets are expensive to run (need a ton of swimmers to justify cost)
4. Volunteer Time (man-hours)
5. Software complexity (only certain people know Hy-Tek & console & pads)
6. Transmission touchpoints on the deck (Stopwatches, Paper, Equipment etc.)

THE SOLUTION…

1. **SWIM ANY TEAM:**
   - Swim any team inside or outside your LSC/League
   - Invite & manage your friends through the Swimmingly Clubhouse

   Setup & score inter-squad meets, dual meets, tri/quad meets, or meets with 20+ teams and have fun competing virtually!

2. **SWIM ANY TIME:**
   - Run meets before/during/after practice time
   - Pick up where you left off in the meet when practice groups change
   - Run your meet across multiple practices or days, run as many as you like
   - Use heat sheets for your side of the meet, or don't - up to you!

3. **SWIM ANYWHERE:**
   - Safely run your part of the meet at your home pool.
   - Designed for each team to use **all their lanes** on their own heat sheet, because leaving empty lanes would be a waste of time.
   - No additional pool or equipment charges required.
   - Easily accommodate local restrictions of people allowed on deck!

RUN MEET: Swimmingly ENTRIES: Clubhouse

Swim Meets, Made Simple

1

1a: Activate Account
1b: Purchase Starter Kit

All-in-one WiFi system to run the Swimmingly App, NO internet required

2

2. UPLOAD ROSTER

Auto-assigns your Swimmer IDs

3

3. Create/Accept Virtual Meets!

Swim ANY TEAM, ANY TIME, ANYWHERE

4

4. Complete Entries

SwimminglyFan enabled for LIVE results

OPTION: Skip entries and fill all your lanes with swimmers!

5

5. Run Your Meet!

Swim ANY TEAM, ANY TIME, ANYWHERE

PAPERLESS, contact-free transmission of data

6

6. Publish Swim Meet

Results automatically combine, score, place, etc.

Swimmingly → USA Swimming

1. Results will automatically create an SD3 file.
2. Export SD3 file from Swimmingly
3. Send/Import to USA Swimming database

RUN MEET: Swimmingly

Swim Meets, Made Simple
