- Undergraduate Student, University of Arizona (August 2015 – Present)
- Swim Instructor/Lifeguard, Central Arizona College (May 2012 – April 2015)

Personal Statement

Swim fundamentally shaped my life. Throughout all my schooling and young career, swim has served as refuge from the stress and fatigue of the world and as a place to focus and build something greater, whether physically, mentally, or emotionally.

I began serving as an Athlete Representative with the sole goal of creating a more competitive, fun environment for my fellow athletes; after several years within the organization and meeting incredible Athletes from around the world, all with fascinating stories and lessons to share, I still feel I have much more to give to this organization.

I'm running for the AEC this fall with the hopes of spreading Athlete representation across the entire country. Every Athlete within USA should have a voice, and that voice should have real weight. I look to enable that voice and ensure that the organization that shaped so much of my life continues to change the lives of Athletes to come.
